MEAT BILL A PERFECT DEADLOCK

(Scripps News Association)
Washington June 27—It was announced to the Senate this afternoon that the House conferees on the meat inspection bill would rather see all legislation fail than submit to a modification of the House substitute bill. The conferees of the House have declined to meet the Senate again unless the Senate will recede from its demand that packers must pay the inspection cost and that label must bear date of inspection.

OPEN PUBLICITY THE BEST GUARANTY OF MERIT.

When the maker of a medicine, sold through druggists for family use, takes his patients fully into his confidence by frankly and fearlessly publishing broadcast as well as on its bottle wrapper, a full list of all its ingredients in plain English, this action on his part is the best possible evidence that he is not afraid to have the search light of investigation turned full upon his formula and that it will bear the fullest scrutiny and the most thorough investigation. Dr. Pierce's Favorite Prescription for the cure of the weaknesses, periodical pains and functional derangements of the organs distinctly feminine, is the only medicine put up for sale through druggists for women's special use, the maker of which is not afraid to take his patients in his full confidence by such open and honest publicity.

A glance at the published ingredients on each bottle wrapper, will show that it is made wholly from native, American, medicinal roots, that it contains no poisonous or habit-forming drugs, no narcotics and no alcohol—pure, triple-refined glycerine, of proper strength being used instead of the commonly employed alcohol, both for extracting and preserving the active medicinal properties found in the roots of the American forest plants employed. It is the only medicine for women's peculiar diseases, sold by druggists, that does not contain a large percentage of alcohol, which is in the long run so harmful to woman's delicate, nervous system. Now, glycerine is perfectly harmless, and serves a valuable purpose by possessing intrinsic value all its own, and besides it enhances the curative effect of the other ingredients entering into the "Favorite Prescription."

Some of the ablest medical writers and teachers endorse these views and praise all the several ingredients of which "Favorite Prescription" is composed—recommending them for the cure of the very same diseases for which this world-famed medicine is advised. No other medicine for women has any such professional endorsement—worth more than any number of ordinary testimonials. If interested, send name and address to Dr. B. V. Pierce, Buffalo, N. Y., for his little book of extracts from the works of eminent medical writers and teachers endorsing the several ingredients and telling just what Dr. Pierce's medicine are made of. It's free for the asking.
