POPULAR CATCHER INJURED

Walter Guy of Leon, Kansas, who had been working in the railroad yards at Huntington, and playing ball with the team from that city, met with a gruesome accident yesterday. He was thrown under an engine in some way, and the wheels severed one of his limbs. He was taken to the hospital at Baker City. Guy was one of the best catchers in the state, and when seen here with a Huntington team a few weeks ago, won the praise of all for his clever work.

WALLOWA BRIDGE NEARS COMPLETION.

The work on the Wallowa bridge is progressing rapidly and in the course of a few days will be completed and ready for use. The bridge is located about 150 yards above the location of the old bridge which brings it just below the mouth of the Minam river. This will be a great help to traffic both from Wallowa and Union counties, as stock and vehicles can now cross the river without danger of drowning, as has been the case up to the present time.

FINAL PRACTICES.

The fire department boys were out last evening practicing their stunts for the Fourth. They limited the work to starting and springing, and as a final wind-up of the evening's work, they ran the full 200 yards and strung 300 feet of hose. The time, though not announced was creditable. The boys have worked hard and should win their share of the races tomorrow. A hose cart, especially adapted for this purpose arrived from Walla Walla last night and will be used in the races.

A LITTLE GIRLS CONCEPTION

The following is a true story, vouched for by Chas. Noyes, who gives his personal guarantee that it really occurred at the Stevenson saw mill. It simply tends to show that loggers are the same the world over and that they are considered in a class to themselves by all who know them. It seems that there had been a pay day and the usual fight, and that the same was witnessed by a little girl. She described the altercation to her mother in the following graphic manner.

"O mamma, you should have seen the fight down the street. There was a fight between a logger and a man and the gentleman who runs the saloon rushed out and stopped them". It is ever thus.

Deaths from Appendicitis

decrease in the same ratio that the use of Dr. King's New Life Pills increases. They save you from danger and bring quick and painless release from constipation and the ill growing out of it. Strength and vigor always follow their use. Guaranteed by NEWLIN DRUG 25c. Try them.

Ladies white canvas oxfords, at the Fair store.

FAVORITE COLORS

are all found in the list of Sherwin Wilhams paints, and their high quality insures that any shade will be permanent. They don't fade like many so-called paints. Neither do they lose their life and scale off, are they affected by sun or rain. They can be relied upon as being thoroughly durable in all respect. Now that the 4th of July is approaching it is a good time to celebrate by giving your house, fence, or outbuilding a new dress.

MALARIA AN INSIDIOUS FOE TO HEALTH

Malaria is an atmospheric poison which we unconsciously breathe into our lungs through the impure air arising from low, marshy places, stagnant ponds, damp cellars, sewer pipes, improperly ventilated houses, decaying vegetable matter, etc. Day after day these germs and poisons are taken into the lungs, and as the blood passes through them it becomes infected with the poison and in its circulation distributes the microbes of disease to all parts of the body. Malaria is a very insidious disease; it gives no warning of its coming until the circulation is filled with the poison and this foe to health has the system at its mercy. The blood becomes polluted, thin and weak and its slow, irregular circulation fails to properly nourish and strengthen the body. Then the entire system is attacked, and if the germs and poisons of Malaria are allowed to remain the strongest constitution will break down. No one can feel well when the system is in a malarial condition; the vitality is weak, the appetite poor, digestion deranged, the complexion grows sallow and the entire body feels the effects of the poison. Malaria must be removed from the system through the circulation and the only medicine that can accomplish this is S. S. S. It not only cleanses the blood of all unhealthy morbid matter, but destroys the germs, cures Malaria and restores this vital fluid to a strong, healthy condition. S. S. S. is made of roots, herbs and barks combining purifying and tonic properties which keep the blood free of all poisons and the system in perfect condition. While destroying the germs of Malaria and building up the weak, polluted blood S. S. S. gives tone and vigor to the entire system. Book on the blood and any medical advice without charge.
