facts as represented true and accurate in each particular. The truth about Union is good enough. There is no occasion or necessity whatever, to draw upon imagination.

The City of La Grande is fortunate in securing the location of a large lumbering plant that will employ between 200 and 500 people. La Grande is destined to be a city of some considerable size.—Wallowa Democrat.

The doctors in National convention at Boston, decided that there are eight different kinds of headache. There is many a man who does not even pretend to be entitled to a diploma, who will give a personal testimonial that he had had twice that number, all in one night.

Mr. Bryan announces that he really does not care for the presidential nomination in 1908, but if the party decides that he and he alone can carry the party on to victory, he would not have the heart to refuse. The party on two previous occasions handed him the gold-foil package and history may repeat itself.

MORE DEADLY THAN CHOLERA

A scourge more deadly than cholera, the fatal sleeping sickness—a sleep from which the victim never fully awakens—is threatening to depopulate large portions of interior Africa. At any rate it is a serious menace to plans of the colonization of that country, and all the trouble is due to a fly.

Already the sleeping sickness is known to have caused more than 200,000 deaths; one can only conjecture how many more natives have fallen victims to it in the comparatively unexplored interior fastnesses. In the Jinga community, Ripon Falls, alone, 30,000 deaths, have resulted, and many islands in the Victoria Nyanza are swept clear of inhabitants.

The epidemic of sleeping sickness, says the Philadelphia North American, is more deadly than cholera, for the reason that its victims never recover. There is no known remedy. Its deadly germs are implanted through the bite of the tsetse fly, well known to all African travelers. That the fly is fatal to horses and cattle has long been known, but until recently, human beings were supposed to be immune.

The present outbreak began only three years ago, and in that time the disease has claimed victims equal in number to the entire population of Louisville and Minneapolis.

A REAL POLITICIAN

The following definition of a politician is by Mathew Arnold, and is a little different from the common acceptance of the term:
"Because these things, right and wrong, are really what do govern politics, and save or destroy states, the few who keep insisting on the good of righteousness and the unprofitables of iniquity are the only real politicians."

There is not a thing of a public nature for distribution, relative to the resources of this wonderfully productive county that such matter has been in great demand for several years is manifest to all. The special edition which the Observer is now preparing will be complete covering in detail all of the resources. An edition that you can send to the many homeseekers of the East, who after reading it carefully and upon their personal inspection of the county will find the

A LITTLE TALK ON
ICE CREAM SODA
NOT BETTER THAN THE BEST
BUT BETTER THAN THE REST

To maintain the reputation we have acquired for supplying the needs of our many patrons in every department, a reputation we point to with pardonable pride, we want, now, to advise you that we have opened our soda fountain with a new line of crushed fruits and fruit juice which excel any which we have ever had, and while we may occasionally find a party who has never tried one of our delicious ICE CREAM SODAS we find a hundred who have, and do, and always will, because they want the best and appreciate a fine article. We have some new flavors this year which are going to be of universal favor on account of their delicate flavors. Hoping you will kindly favor us with an early call, so we may show you.
