The Hague July 11—The exhibition of the plans for the new Peace Palace at this city under the Carnegie Foundation, which was opened here last month will be closed on Saturday. It is reported on good authority that the board of trustees of the Carnegie Foundation intends to send the plans to the United States and exhibit them either in Washington D. C. or in New York.

NEW FRUIT PEST

Cherry and pear crops are seriously menaced by a worm known as "slug" which has made its appearance in Spokane and is rapidly devouring the foliage of the trees.

A. F. Growell fruit inspector for Spokane county has made an investigation establishing the seriousness of the new pest and prescribes that all trees so affected be sprayed with arsenate of lead diluted in 40 parts of water. L. L. Good win has been recommended by Mr. Growell to do this spraying.

The slugs like the San Jose scale seem to effect the fruit trees in the city having not yet invaded the country orchards.

While the slugs are not as dangerous as the scale they have the capacity to ruin the cherry and pear crop for this and next season.

MAY BE INTERESTING

It is reported that there may be something doing at the meeting of the city council this evening. For several weeks there have been more or less secret accusations of graft and the Mayor stated that he would recommend in a special message to the council this evening that a committee be appointed to investigate the charges if there are any. This may open up a flow of oratory that would justify an advance sale of seats for this evening's entertainment.
