It has been estimated that it will require eighty-five men working every day until 1947 to unearth the entire ruins of Pompeii.

The French President receives \$120,000 a year, and gets, in addition, fruit, vegetables, game, fuel, oil, gas, electric light and washing free.

Out of every 100 pounds of paper manufactured in the world, only 6 pounds is made into books.

The Chinese have a peculiar custom with regard to turtles. They are not used for culinary purposes, but are thrown into the sea at the commencement of a voyage in order to insure good luck.

Scientists roughly calculated from the data so far available, that the stars of the Milky Way are situated from 100,000,000 to 200,000,000 times as far away from us as the sun is.

Idaho is now to try for a law, providing for a direct primary election. It is only a question of time until every state will nominate in this manner. This is an age where the people demand to take part in the politics as never before. The old system of a few wily fixers doing all of the work for the dear people is a thing of the past.

The President through his secretary, Mr. Loeb, is out again in a public declaration that he will not be a candidate for re-election. While he may be sincere at this time, after all the President is only only human and if the people demand that he shall continue in the good work that he is doing, it will be very easy for him to change his mind. Wise men often change their views, fools never.

There has been a recent ruling of the Department of the Interior to the effect that claimants for timber and stone lands must examine the land very near to date of proof in order that they may testify with reference to the condition of the land at date of proof. It will be well for those expecting to make proof on timber land to take their witnesses and examine the land immediately prior to making proof as well as before making the sworn statement.—Laidlaw Chronicle.

Whether or not we get a rain the cool gentle breeze of last evening was quite a tonic to the grain on the high dry land. In some portions of the state, grain is suffering badly from the excessive hot weather and in spots it has done some damage in this county but in case the hot wave abates, the damage will be nominal.

Germany is the leader of the world in education. Not content with the best common school system, the best industrial schools and the best universities, the Prussian minister of commerce is cooperating with the municipal authorities of Frankfurt-on-Maine in establishing an institution in that city to increase the skill of men who are already master workmen in their craft. This school offers special instruction to carpenters, locksmiths, upholsters, and tailors. It is part of the systematic effort in Germany not only to convert laborers to skilled workmen, but to raise the standard of intelligence and efficiency in the various trades.

A movement of great political significance has been started by the managers of both political parties in Indiana. In five counties of the state the party leaders have signed agreements not to spend one dollar for the purchase of votes in the coming election. Moreover, no man known to be purchaseable, or who is not known to be a party man, is to be employed about the party headquarters on taking the party poll. For this necessary work both parties have agreed to pay the same wages, and neither is to employ any man to whom the other party objects on the score of his bad character. This is a sensible and simple way of purifying politics at its source.

Deadly Serpent Bites

are as common in India as are stomach and liver disorders with us. For the latter however there is a sure remedy: Electric Bitters; the great restoration medicine, of which S. A. Brown, of Benningtonville, S. C., says: "They restored my wife to perfect health, after years of suffering with dyspepsia and a chronically torpid liver." Electric Bitters cure chills, and fever, malaria, biliousness, lame back, kidney troubles and bladder disorders. Sold on guarantee by the Newlin Drug Co., price 50 cts.

THIS FOR MINE EVERY TIME

No more a muddled brain for mine I'll call for soda every time. Quench my thirst to my heart's content. Save cash for clothes as well as rent. Treat my wife and children too. "Smile" with them, and "smile" with you. All the popular drinks at Hill's soda fountain.

A LITTLE TALK ON ICE CREAM SODA

NOT BETTER THAN THE BEST
BUT BETTER THAN THE REST

To maintain the reputation we have acquired for supplying the needs of our many patrons in every department, a reputation we point to with pardonable pride, we want, now, to advise you that we have opened our soda fountain with a new line of crushed fruits and fruit juice which excel any which we have ever had, and while we may occasionally find a party who has never tried one of our delicious ICE CREAM SODAS we find a hundred who have, and do, and always will, because they want the best and appreciate a fine article. We have some new flavors this year which are going to be of universal favor on account of their delicate flavors. Hoping you will kindly favor us with an early call, so we may show you. We are respectfully,

A. T. HILL
