The time is short for you to number your house. Better do it now.

Cut the grass down and thereby prevent the possibility of a serious fire.

La Grande will soon be one of the greatest dairy sections in the Northwest.

Begin now to prepare for Fair. Let us have a good show.

More help is the result of which comes from the best fields of the orchards, and the best fields, the best fields.

The lane from the center of attraction. There is every indication that these will be things doing.

Of the thirty-five million bullets fired by the Federal Government during the Cretan war 44,000,000 failed to fulfil their errand of duty.

The most valuable crown in Europe is the Portuguese; but the Austrian, valued at \$550,000, is the finest specimen of the goldsmith's art.

The circus is coming and the small boy already has his eye on the gunny sack, and visions of the purchase price of a ticket to the show.

Norway's coast-line—1,700 miles in a straight line—becomes over 12,000 miles if followed round the fjords. In these fjords are over 150,000 islands.

Chicago is gradually sinking at the rate of nine inches every 100 years. A professor predicts that in about 1,500 year's time the city will be inundated by Lake Michigan.

Seats in the council chamber will be in demand tonight. The people await the investigation of the graft charges with interest. Tonight is the night when things are supposed to happen.

The government crop report just out places the wheat crop this year at 710,000,000 bushels, the largest crop in the history of the United States, with the exception of 1891. The report shows that 55,000,000 acres had been planted to corn, a gain over 1905 of 1,500,000 acres.

While we are reporting to be shipping Oregon and Washington lumber to Japan, Mr. Hartman says 1,500,000 railroad ties in that country to be used in Mexico. It looks peculiar, but possibly the Japanese tie lumber could not be sawed into a good quality of lumber.

It is important to those who own property across the railroad track to know that an error was made in number of the houses in that part of town and that they will be required to renumber. This error was made in renumbering the city map. Property owners may learn the proper number by calling at the city recorder's office. Bring your lot number and also the name of the street upon which your house fronts. Do this at once and save trouble and extra expense.

Klamath province is now to be one of the great parts of Oregon. Lumber since the world began it has made happy homes for men in the civilization of all the ages. Irrigation or irrigation orator will be the desert blossoms as the rose, a touch of irrigation through modern science and statesmanship, may be used to unite the old and the new of earth's creations. Sleeping silently beneath a burning sun these vast plains will awake to a realization, the like of which is scarcely pictured in dreams. Pendleton Tribune.

A LITTLE TALK ON ICE CREAM SODA

NOT BETTER THAN THE BEST BUT BETTER THAN THE REST
To maintain the reputation we have acquired for supplying the needs of our many patrons in every department, a reputation we point to with pardonable pride, we want, now, to advise you that we have opened our soda fountain with a new line of crushed fruits and fruit juice which excel any which we have ever had, and while we may occasionally find a party who has never tried one of our delicious ICE CREAM SODAS we find a hundred who have, and do, and always will, because they want the best and appreciate a fine article. We have some new flavors this year which are going to be of universal favor on account of their delicate flavors. Hoping you will kindly favor us with an early call, so we may show you, we are respectfully,
