Some good Indians are not dead, but they are lonesome.

A logical man is one who readily sees the reasonableness of your position.

There is something in the makeup of the waiter that prevents him from seeing the evils of the tipping system.

A ton of the finest logic on the market will not convince an aching tooth of the error of its way.

The lawyers have changed their minds again, and Harry Thaw appears today a drooling idiot, unable to remain in one place without being looked up, and incapable of lying on the ground without holding on.

General Stoessel may consider himself more fortunate than General Fock. Death is preferable to 20 years in the galleys. But why couldn't Stoessel save his life by pleading mental irresponsibility, as Admiral Rojesventsky did?—Ex.

The Chicago man named Gourdain is making strenuous and frantic efforts to get into the penitentiary, having been sentenced thereto for four and a half years. He certainly should be accommodated. If a man has to serve in jail, it isn't fair to keep him out of it.

Advertising is rapidly becoming the force that moves the world. Staid old Boston has appropriated \$50,000 to be spent during the year in advertising the city and the business men will supplement this with another \$50,000. And as a result of this campaign with printer's ink it will be interesting to "watch Boston grow."—Ex.

Farmers of the Inland Empire are awakening to the fact that they must do something to eliminate the weed pests, that are menacing their farms. For many years few of these species of weeds were present and little heed was given to them until they have increased to such numbers that whole farms are menaced special care should be taken to clean the fence lines and fence corners. The county should see that the roadsides are kept clean, to prevent the spreading of the seeds. By a careful and systematic effort the pests can be gotten under control and finally abolished altogether.—Pullman Tribune.

The czar, distressed and annoyed by the actions of some of his subjects, calls their attention to the soft and gentle hand that has guided them to the quiet places of national enjoyment, and says that if they do not cease their bomb throwing and pistoling that he will declare a dictatorship. The czar must consider affairs very serious.—Ex.

Ice men are getting in hit in all the big cities, pretty nearly, lately. W. F. Lyons, president of the Central Ice Company of Kansas City, testified last Wednesday that he had gone into the ice business in 1900, and that, the following summer being very hot, he raised the price of ice to meet the demand and made a profit of \$45,000 that year. Think of that will you—\$45,000? \$45,000 clean—or rather unclean—profit. All in one summer.

A recently completed census report on the blind and deaf in the United States shows that about one person in every 1200 was blind, and "one in every 850 deaf in the United States in 1900. The total number of blind in that year was 64,763, of whom 35,646 were totally blind. About one tenth of the total number of blind were born so. There were more blind among the negroes than whites. Of the blind at least ten years of age 20 % were engaged in some gainful occupation.

A LITTLE TALK ON ICE CREAM SODA

NOT BETTER THAN THE BEST
BUT BETTER THAN THE REST

To maintain the reputation we have acquired for supplying the needs of our many patrons in every department, a reputation we point to with pardonable pride, we want, now, to advise you that we have opened our soda fountain with a new line of crushed fruits and fruit juice which excel any which we have ever had, and while we may occasionally find a party who has never tried one of our delicious ICE CREAM SODAS we find a hundred who have, and do, and always will, because they want the best and appreciate a fine article. We have some new flavors this year which are going to be of universal favor on account of their delicate flavors. Hoping you will kindly favor us with an early call, so we may show you. We are respectfully,
