PRICELESS COLLECTION

The Great Adam Forepaugh and Sells Brothers' enormous shows united, which are to exhibit here Wednesday, August 8, illustrate the highest development of the modern circus. A combination of two of the greatest amusement enterprises known to circus history, and the ownership of the most successful circus managers in the world today, have produced this result. Twelve acres of space are necessary for the numerous tents, and the canvas under which the circus program proper takes place, will comfortably accommodate twelve thousand people. In this huge area, besides the great stretches of rising seats for the multitude, are a forest of aerial "fixings" for the daring work of trapeze performers, two great stages for variety of gymnastics and vaudeville sensations imported from European capitals; three rings for the nerve-quickenings specialties of circus riding, and a quarter of a mile racing track for the hippodrome features of ancient glory. The menagerie annex offers the most complete and valuable wild animal collection ever offered for public inspection. It is a veritable library on natural history, affording a wonderful opportunity for inspecting at close range the rarest of wild animal nature. Huge dens, tanks, pens and cages are grouped in classes for a convenient and helpful study of the individual and general characteristics of the priceless collection.

TEN NEW ENGINES COMING

Within a very short time the Mountain division of the O. R. & N., is to have ten new engines. They are not the ordinary type but are the balanced compounds similar to those used in the mountains at the present time.

These freight engines are manufactured by the Baldwin company of Philadelphia and are the most modern engine built at the present day. Their tanks are square, and they will be equipped with New York valves and air pumps, as well as the Vanderbilt fire box and baffle doors.

These new monsters will be shipped to this city. From here they will be sent out on regular runs.

LAST CHANCE FOR PAPOOSES.

(Scripps News Association)
Muskogee, I. T., July 25.—Today is the last day on which Indian babies can be enrolled so as to secure for them their share in the allotment. Although the number of Indians babies enrolled during the last few days has been considerable, it is believed that many Indians in the remote districts have neglected to register their babies thus forfeiting their share in the allotment.

A tragic finish

A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province of Holland. In like manner Kenneth McIver, of Vancouver, Me., permitted a little cold to go unnoticed until a tragic finish was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation, caused by a neglected cold, but Dr. King's New Discovery saved my life." Guaranteed best cough and cold cure, at Newlin Drug Co. 50c and \$1.00. Trial bottle free.
