UNION ENTERS POLITICS

The Central Federated Union of New York City, after a lengthy debate, decided to go into politics in accordance with the recommendation to the affiliated unions made by President Gompers of the American Federation of Labor. The platform submitted by the executive committee which has been under debate for two Sundays, was adopted in its entirety over the violent protests of the socialists who made a fight to force the Central Federation Union into committing itself to the socialist party.

MACHINE OIL FAMINE

There has been a machine oil famine in Paradise, Appleton and Flora for the past few days. As haying was at its height there was some hustling about. —Flora-Journal

MAMMITH PROCESSION

The parade with which the Great Adam Forpaugh and Sells Brothers' enormous Shows will begin is announced to leave the exhibition grounds at ten o'clock promptly, and go over the principal business streets. This free pageant has been enlarged and magnified so that it presents more dazzling features than were ever seen in a display of this kind before. All of the men, women and children connected with the show will have some part therein. There are more than a thousand people employed by the immense enterprise. Many of the animal cages will be open, and the little folks will have a special division for their delight. Pert and the beribboned ponies and graven counterfeits of fairyland ideals, with rolly-polly clowns are conspicuous factors in this section for the little people. Lumbering elephants, three great herds of them, supporting enpurpled thrones with radiant canopies and flashing embellishments and gorgeously garbed and bejeweled riders of the great nations of the world, meekly following camels, soldiery types of all nations, graceful women riders, fashionably gowned, famous equestrians, spirited horses of blueblooded pedigree, musical vehicles of recent invocation and tremendous volume and tableau floats with picturesque groupings of racial types, and a hundred and one other items, some of which are familiar, and many more refreshing novel and fascinating, are woven into the three miles of professional glories.

SKIN DISEASES

FILY ACIDS IN THE BLOOD

All skin diseases are due to the same cause—an excess of acid in the blood caused by faulty assimilation of food and poor bowel action; this fiery acid matter is forced to the surface through the pores and glands. Pusules are formed, discharging a sticky fluid which dries and makes a crust, causing intense itching. When the crusts or scabs are scratched off the skin is left raw and bleeding. Sometimes skin diseases are in the dry form, and bran-like scales come on the flesh, or the skin becomes hard and dry, often cracking, and the painful itching causes acute suffering. It does not matter how the trouble is manifested, the cause is the same—an excess of acid in the blood. Salves, powders, cooling washes, etc., while they relieve the itching and give the sufferer temporary comfort, cannot cure the trouble because they do not reach the acid laden blood. The best treatment for all skin diseases is S. S. S., a remedy that is purely vegetable and one which acts directly on the blood with a cleansing, healing effect. S. S. S. neutralizes the acids, and purifies the blood so that the skin instead of being blistered and burned by the fiery fluids, is nourished by a supply of cooling, healthy blood. Special book on Skin Diseases and any medical advice desired will be furnished without charge.

BIRNEHOFF FOUND GUILTY

It was after eight o'clock when the case of State versus Frank Birnehoff was settled in Justice court last evening. The defendant has used a certain piece of land for twelve years as a road and when notified to cease by the owner J. D. McKennon he showed no sign of breaking away from the habit according to the testimony, and it was only as a last resort that McKennon appealed to the court. Attorney Ashwill for the defense argued that because he had used the thoroughfare for that length of time he had acquired a legal right. He also tried to prove that the defendant had acted in good faith in so doing. However it took the jury but ten minutes to decide that the defendant was guilty of trespassing.

ARRESTED AND RELEASED

Last evening a warrant for the arrest of Dick Ryan was sworn out and the man in question was taken in by the police, examination being set for this afternoon. At the hour set today, the chief complainant Chas. Anderson withdrew his complaint and the matter was dropped. Ryan came into Chas. Anderson's saloon last night and started a rough house with dangerous weapons. Mr. Anderson promptly quelled the disturbance by calling the police.

HE SPENT IT ALL

Night Policeman Waldron rounded up two noisy drunks last night and placed them in the city jail. After being arraigned in court this morning they were fined five dollars apiece and on being asked if they had the necessary amount, one, with considerable Swedish said that he guessed he hadn't any seeing he blowed in so much getting that awful jag on. Both were re-lodged in jail.

Quincy, Wash., Aug. 1—Reports from Vulcan, on the Great Northern, about 18 miles west of here, say that the farmers in that vicinity are cutting their wheat crops for hay, it is not being considered worth the expense of threshing. The failure is principally due to the extreme warm weather.

BIGGER YIELD THAN WAS HOPED FOR

Harvest operations throughout the Inland Empire are well under way, but as yet no new grain has made its appearance upon the local market, and grain dealers express the opinion that hauling will not commence much before the middle of next month, although some small consignments are expected almost any day.

The grain which has been brought in to be tested has shown that there are two distinctive grades in this year's product. Fall sown grain on the heavier land invariably grades No. 1, while the spring sown grain on the flat and in other light land localities falls below this and in some cases below the No. 2 standard.

The yield for the most part will be better than farmers have been expecting, and between 18 and 25 bushels will be the average yield. Of course there will be many fields where the yield will be considerably less than this figure, but these will be the exception and not the rule.

Walla Walla county, according to estimates furnished by grain men, will show up this year with a 60 per cent crop, and they say we will be fortunate if percentage does not fall below this figure.

Farmers generally are quite optimistic over conditions as they now appear, and there will be many who will meet with happy disappointments in harvesting a larger crop than they dared hope for.—Walla Walla Union.
