M. & M. WILL FORECLOSE MORTGAGE

The OBERSEER was informed through the president of the company, Mr. F. J. Holmes, that at the October term of the circuit court, the M. & M. Company would foreclose their mortgage which they hold against the fair grounds, amounting in all to about \$11,000. Mr. Holmes stated that nothing would be done until after the present fair was held.

This resolves itself down to the fact that something must be done and that in the immediate future or Union county will have no fair grounds. These grounds consist of sixty acres of land which valued from the selling price of adjoining land is worth easily \$150 per acre and possibly none could be secured at this price. The improvements viewed from a fair standpoint are worth at least \$5000 or a total value of \$14,000. Mr. Holmes states that he does not like the idea of Union county losing this valuable property and would meet any kind of a proposition half way with a view of maintaining the grounds. If it is advisable to have a county fair annually, this property is too valuable to be permitted to pass away. It is now up to some public spirited person or persons to take hold of this proposition and reorganize the financial problem which seems capable of easy adjustment. Who will do it? The OBERSEER would be pleased to receive expressions from any who might have suggestions of value to offer. A county fair properly conducted is of no small educational advantage to our own people who by this means meet once a year and compare the result of their labors. We all know the advantages of a live county fair. The question is now up to us all whether or not we will have one.

A BIG NOISE AND LESS FIRE

The little fire bug that has been making an occasional flash in this city for the last three weeks, made another periodic appearance this morning. About four o'clock this morning, the sleeping populace was awakened by the most frightful conglomeration of high pitched, low toned fog horns and whistles, and bell ringing that has greeted the human ear for ages. Every locomotive in the yard was industriously tooting away and even the fire bell joined the racket making. However there was a fire alright but the department was unable to reach it as the blaze was near the brick yard. Citizens and firemen stood about and watched a barn belonging to Mrs. Gangloff burn to the ground. Due to the extraordinary amount of fire alarm, people had the impression that the round house or some business block was in flames.
