They were all in town today.

Every livery stable, feed yard and hitching rack was full of teams today.

A glance at the fine fat horses and up-to-date carriages with which the farmers came to town today was sufficient to demonstrate the fact that La Grande farmers are prosperous.

The toy balloon did not last all day, but the effects of the pop corn and pink lemonade reached for into the night, therefore things will be averaged.

STILL WORKING

The idea prevailed at the beginning of the land fraud cases in this state that it was all a political scheme inaugurated to catch a few of the "Big fish" and that would be all there was to it. That idea was a mistaken one and the convictions continue and the untried docket yet remains a long one.

THE BEGINNING OF HISTORY

On Monday, July 23, just three months and five days after the great fire (for history, Mayor Schmitz tells us, begins with that event), the public schools of San Francisco reopened. To the forty-nine buildings that had escaped the burning in multitude of healthy, strong children flocked. Tanned by the sun and wind, refreshed by months of living in the open air, for hundreds of them had scoured in tents in refugee camps throughout the summer months, they formed the nucleus of the great army which has been growing in numbers every day since the schools once more swung their portals wide.

One week later the school attendance had grown from 24,594 to 29,000, and the tide has not yet reached the flood.

This coming back of the children with their joy in their work, their vigor, their enthusiasm, their bright eager faces, is a characteristic sign of optimistic spirit of all our people in accepting existing conditions.

MERCURY A DECEPTIVE TREATMENT

Mercury and potash are very deceptive treatments and the blood poison sufferer who depends on them for a cure is sure to be disappointed. These minerals will remove the external symptoms and shut the disease up in the system for a while, but the trouble will surely return and the loathsome symptoms of sore mouth and throat, copper-colored spots, falling hair, sores and ulcers etc., will be accompanied by the disastrous effects of the treatment. The continued use of these strong minerals will completely ruin the health and weaken the system to such an extent that the original disease often becomes incurable and sometimes fatal. Mercury and potash eat out the delicate lining of the stomach and bowels, destroy the gastric juices, producing chronic dyspepsia, cause mercurial rheumatism, salivation, and where they are taken in large quantities cause necrosis or decay of the bones. S. S. S. is the only remedy that can cure Contagious Blood Poison surely and safely. This remedy of nature, made entirely of roots, herbs and barks, antidotes and destroys the powerful virus of the disease and by purifying the blood of every particle of the poison and enriching and strengthening this vital fluid it removes every symptom and leaves the body in a strong, healthy condition. When the blood has been purified with S. S. S. the cure is complete, and not one vestige of the poison is left for future outbreaks. Do not waste valuable time, and damage your health with the mineral treatment, but cure your case with S. S. S., an absolutely safe remedy. We offer a reward of \$1,000 for proof that S. S. S. contains a particle of mineral. Book with instructions for self treatment and medical advice without charge. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**

EVOLUTION, NOT REVOLUTION

Social unrest is a characteristic of the times. "A noble discontent" animates a considerable proportion of the people.

Farmers complain that many things are not right and that certain reforms are imperatively required. The wage earner, as usual wants a larger return for his labor, aspires to his own home, and to share his family enjoy comforts which a few years ago were the luxuries of the few. The manager of industry is constantly striving to find means of avoiding waste and of increasing profits. Investigators want to make money fast but an increasing proportion of them are still more anxious to find investments that will yield, say 5% per annum without any loss whatever of principal.

Science and invention are constantly making discoveries and improvements that are working great changes in life and industry. Women are striving for more rights and wider usefulness. In religion and in other fields of thought the force of inquiry and change is also active. In all this unrest and ferment some conservative people see only cause for alarm. As a matter of fact, the situation is full of hope. If people were lazily satisfied, if they were mentally stagnant, if they were not striving for a high morality and a real spirituality then indeed alarm might be well felt for the future. Enemies of the body politic all who fatten by special privilege for the few at the expense of the many, thrive best among acquiescent people. When the public is wide awake, ever on the alert over its pressing problems, progress is in the air. Stagnant people can be aroused and secure their rights only through revolution. People who are physically and intellectually active will progress through evolution. And there's all difference in the world between evolution and revolution.—Oregon Judd Farmer.

MAHARA'S MINSTRELS

Traveling in their own \$50,000 palace car, carrying the latest creation of the famous scenic artists, Sosman and Landis of Chicago, in the way of scenery, entrancing costumes to aid the efforts of 25 of the foremost colored stars, Mahara Brothers ought to be able to furnish two and a half hours of music, mirth and melody, odds and ends and oddities that would be acceptable to the gloomiest individual living. Mahara's minstrels will appear in the opera house here August 13 night giving that street parade at noon.

SPECIAL SALE

On Saturday afternoon and evening at Grandy & Russell's meat market the ladies of the Methodist church will offer for sale a number of especially fine home made cakes and bread. Not a few of these ladies think they are about as fine cake makers as it is possible to find anywhere and will try and substantiate their reputation upon this occasion.

SUSTAINS SCALP WOUND

Mr. Sun, who makes himself useful about town by doing odd jobs, sustained a severe scalp wound this morning. He says he was carrying a tray of glassware in the Chop House restaurant when his feet slipped and he fell, throwing the contents of the tray against a wall. The glass was smashed and it was pieces of it that cut his scalp in a very serious manner.

LA GRANDE SCHOOL OF MUSIC

PROF. DAY, PRINCIPAL.
MRS. DAY, ASSISTANT.

This is one of the best musical institutions in the state, and that people in this city and valley are beginning to discover the advantage of this school. The system is the latest and most practical, and includes all the latest discoveries in the art of teaching music. The school is divided into two departments; No. 1 is for beginners from 5 years or more and are taught the first three grades. Pupils come one hour each day. This is no kindergarten system but far superior. In No. 2 the grades are from 3 to 15. Here they graduate. Pupils take one or two lessons a week as they desire. No scholars will be permitted to remain in this school who do not study.
