## \$50,000 FOR HALF INTEREST

(Scripps News Association)

Los Angeles, August 8.—Clay Peters, the millionaire mine owner of Tonopah, arrived from the Manhattan mining camp yesterday afternoon and is a guest at the Lankershim Hotel.

He came here for the express purpose of interesting capitalists in the Indian Camp Extension mine, which he regards as one of the most promising properties in the state of Nevada. He succeeded in his mission before he had been in the city three hours.

A company of local capitalists headed by the Pacific Coast Mines Bureau purchased from Mr. Peters one-half interest in the Indian Camp Extension mine, the purchase price being \$50,000. One of the buyers was B. M. Blythe of Monrovia, who is already heavily interested in Manhattan properties.

Mr. Peters also transferred to the buyers the right to develop the mines, and as soon as that understanding was reached, a telegram was sent to Manhattan directing Capt. Henry Harrison, the Manhattan representative of Mr. Blythe and his associates, to take the property in hand at once and begin development work.

In describing the property on which he had just realized \$50,000, Mr. Peters said:

"The property of the Indian Camp Extension Mining Company, which was formerly the Manhattan Auction Mining Company, consists of two claims, the Auction and the Boston. These claims are situated in the heart of the Manhattan district and within a few hundred feet of the greatest mines in the Manhattan section.

"The claims were located by W. J. Clark, a pioneer in the Manhattan district who sold the control to the Indian Camp Extension Mining Company but retaining an interest. The claims are located on the western slope and the lowest portion of the famous Gold Hill, upon which is located the Union No. 9, the jumping Jack, Stray Dog, Crescent and Indian Camp claims.

"The Indian Camp ledges have a strike in the direction of the claims owned by the Indian Camp Extension Mining Company.

"The merits of the various properties enumerated has been fully demonstrated and is too well known to necessitate a detailed statement. Very recently strikes of great value have been made in other properties adjacent, one of these being the 'Wolf Tone,' in which ore of high value has recently been discovered."
