DULUTH BRIDGE IS WRECKED

Duluth, Minn., August 11.—The steamer Troy, a freighter, collided with a span of the inter-state bridge today and precipitated it into the channel of either side of the center pier.

Navigation to and from the upper harbor, which is the most active portion of the head of the lakes, is blocked and it is impossible for even a tug to pass. The traffic between Duluth and Superior is cut off. The Great Northern owns the bridge which is the longest draw span bridge in the world. Forty steamers in the upper harbor have been cut off from the lake.

MAHARA'S MINSTRELS

Carrying the latest creation of the famous scenic artists, Sosman & Landis, of Chicago, in the way of scenery, entrancing costumes to aid the efforts of 35 of the foremost colored stars, Mahara Brothers ought to be able to furnish two and a half hours of music, mirth and melody, odds and ends and oddities that would be acceptable to the gloomiest individual living. Mahara's Minstrels will appear at Steward's opera house, Monday night, August 13, giving that street parade at noon. Seats now on sale at Van Buren's.

SPRAY YOUR TREES NOW

"Spraying apple trees about the fifteenth of August does more good than all the spraying that can be done previous to this date" was a remark made by John E. Hough this morning. He has had much experience in dealing with apples and apple orchards and while in that business he had opportunity to observe the best time of the year for taking methods to kill off the worms that spoil so much of the fruit. It has repeatedly been proven that at just about this time the third growth of worms for the season takes place and by killing them now many more are destroyed and there will be no chance for another growth to ruin the fruit. The Justice's statements are corroborated by several fruit growers of this valley.

A tragic finish

A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province of Holland. In like manner Kenneth McIVER, of Vashonboro, Me., permitted a little cold to go unnoticed until a tragic finish was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation, caused by a neglected cold, but Dr. King's New Discovery saved my life." Guaranteed best cough and cold cure, at Newlin Drug Co. 50c and \$1.00. Trial bottle free.

PROVIDES FOR INSTITUTE

New York appropriated \$20,000 annually for the support of farmers' institute; Minnesota, \$18,000; Wisconsin, \$12,000; North Dakota, \$6,000; Montana, \$4,000; Idaho \$1,000; Oregon, \$2,500; Washington, nothing.

A little study of the above figures would lead one to believe the greater the need a state has for institute work the larger the fund set apart for the work by the state, which would be right and proper and is true to a certain extent though not entirely so.

New York, with her great markets for all sorts of products, with her greatly diversified system of farming and her many farms of thin land that require all kinds of coaxing to induce it to produce crops, and with her more dense rural population, certainly needs and is well able to appropriate a much greater sum for this purpose than the less wealthy, more sparsely settled states of the northwest, but the difference looks too great.

If New York can use such a sum to good advantage, which she no doubt can and does, Oregon could certainly use a few thousand to a good purpose.

FELL INTO GRAVEL PIT

Charles Harrison was the victim of a very painful but not very serious accident last evening near Hilgard.

Charles is employed with the O. R. & N. steam shovel working near Hilgard last night, after dark he was going along and fell in the gravel pit. He suffered several bruises around the head and legs which will lay him off for a few days.

CAR REPORTED ROBBED

It is reported that an O. R. & N. freight car was robbed between this place and Meacham at an early hour yesterday. It was one of the box cars attached to an east bound freight, and some hoboes who were put off at Meacham are suspected. It is not known what was stolen, the account given by the railway men being very meagre.
