AN ATTRACTIVE SMOKE

means a fine cigar. There is a fascination in La Flora De Hackman's special cigars that is irresistible, even to those who do not use tobacco. It is not hard to account for, however, because it is the highest type of a cigar. Havana filled, Havana wrapper, hand made. It has many imitators, so be sure and get the real thing.

HOLDS DEAD CHILD IN LAP

Shortly after the fire this morning Dr. J. H. Hubbard received a telephone call to come out to Fruitdale where a nine-year-old girl of Mrs. Annie Johnson was reported dying. Hastily awakening a druggist the doctor secured his necessary medicine and went to the sick child's home. When he arrived there he found the mother sitting before the fire holding the body of her child, Harriet by name, in her lap. It was but the work of a moment for the doctor to discover that the child was dead, and had been for nearly half an hour. The mother felt hopeful as the child had seemed to be recovering and she could not believe the doctor's statement.

Mrs. Johnson had been treating the child for tonsillitis and was dumbfounded to learn it was the dreaded disease. The family was immediately quarantined. The child was buried this afternoon.
