## UNIQUE FREIGHT SERVICE

(Scripps News Association)  
Pittsburg, Pa., Aug. 23—C. R. Moore, F. J. Rubly, O. E. Hallam, C. C. Peters and John J. Fitzgerald applied today to Governor Pennypacker for a charter for the Pittsburg Tube Transmission Company. Prominent business men of Chicago and Pittsburg are said to be behind the promoters of the plan. They propose to construct and operate a pneumatic tube transmission line connecting freight depots, department stores, newspaper offices and similar shipping headquarters. The so-called pneumatic relay tube system will be used. The inventors and manufacturers are said to be ready to give a penal bond to guarantee the absolute practicability, utility and economy of this method. It is claimed that this system is much cheaper than others, and therefore its success here is believed to be certain.

While the branches proposed will ultimately touch all the important local freight distributing points, the first tube will connect the East end and the down-town sections. The tube proposed is to be 56 inches in diameter, giving it a large carrying capacity.

### TO BUILD PUGET SOUND NAVAL DOCK

(Scripps News Association)  
Washington, D. C., Aug. 23—The Bureau of Yards and Docks is completing the plans for the only dry dock authorized by Congress at the late session, that is intended for the navy yard at Puget Sound. The borings for the structure are now being made at the Bremerton Establishment, the location of the dock being near the present dock.

The plans, which have not yet been approved, as to general dimensions, will be among the largest in the world. The length of the dock will be 750 feet, and the depth 37 feet. Much interest attaches to the dock on account of the demands likely to be made upon the structure and the yard shops by returning vessels of the Pacific and Asiatic stations. The friends of the Mare Navy Yard are fearful that it means the withdrawal from that yard of much of the work which has always gone to Vallooc. The completion of the big dock at Bremerton will place the navy yard there on a secure footing, and will add greatly to the value of the plant for naval repair work. Incidentally it will mean a great boom for Puget Sound.

### A tragic finish

A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province of Holland. In like manner Kenneth McIver, of Vanceboro, Me., permitted a little cold to go unnoticed until a tragic finish was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation, caused by a neglected cold, but Dr. King's New Discovery saved my life." Guaranteed best cough and cold cure, at Newlin Drug Co. 50c and \$1.00. Trial bottle free.

### THANKFUL ANYWAY

Last evening, as predicted, it rained, and it came down in a bountiful shower. If it happened six weeks before it would have saved a million dollars to the county, but then the people must be satisfied with the seasons as they come and go. Summers may be dry and the harvest light, and the next year different. We should be thankful that we do not live in Chile or Russia and be contented. Then will follow as the night the day, a period of continual happiness.—The Dalles Chronicle.

### A NEW POLKY

Harry A. Chandler, aged 18, and Miss Sylvia B. Battezzore, aged 14, were married in Pendleton at the joint request of the parents.

Later at the instance of the district attorney a warrant was sworn out charging Chandler with a statutory crime. District attorney Phelps says the fact that the boy has married the girl will not stop the criminal prosecution.
