"Smile" with them, and "smile" with you.
All the popular drinks at Hill's soda fountain.

LA GRANDE SCHOOL OF MUSIC

PROF. DAY, PRINCIPAL.
MRS. DAY, ASSISTANT.

This is one of the best musical institutions in the state, and that people in this city and valley are beginning to discover the advantage of this school. The system is the latest and most practical, and includes all the latest discoveries in the art of teaching music. The school is divided into two departments: No. 1 is for beginners from 5 years or more and are taught the first three grades. Pupils come one hour each day. This is no kindergarten system but far superior. In No. 2 the grades are from 3 to 15. Here they graduate. Pupils take one or two lessons a week as they desire. No scholars will be permitted to remain in this school who do not study.
Opposite the Foley House over the candy store. Phone 473.

TO KEEP YOUNG

Never retire from active life, if you can possibly avoid it; keep "in the swim"; keep the mind active; never refer to your advancing years or say "at my age."

To preserve youth, you must have a variety of experience. The country woman at forty, although breathing a purer air and living on a more healthful diet than the city woman, often looks fifty, while the latter at the same age, does not look more than thirty. But her mind is more active than that of her country sister; that is the secret of her more youthful appearance.

Nothing else ages one more rapidly than monotony—a dead level existence without change of scene or experience. The mind must be kept fresh or it will age, and the body cannot be younger than the mind.

Few minds are strong enough to overcome the aging influence of the monotonous life which rules in the average country home. City people have infinitely greater variety of life. They enjoy themselves a great deal more than country people. They work hard when at work, but when they are through, they drop everything and have a good time. There is no doubt that the theatre, in spite of its many evils, has done a great deal toward erasing the marks of age. People who laugh much retain their youth longer.—Success.

COOKING LECTURE

The lecture descriptive of the art of cooking, given yesterday afternoon at Mrs. T. N. Murphy's Hardware store by Joseph Becker, the famous chef, was well attended. All present were delighted with the demonstration and came away highly pleased with the information imparted by Mr. Becker. The lecture this afternoon was even better attended and the demonstration, if possible, more complete. Mr. Becker not only explains how scientific cooking should be done, but shows how as well. He makes all sorts of fancy pastry while he talks and finishes by explaining the merits of the well known Majestic range.

THE STAGE

Harry Hermesen, the clever leading comedian of "The Royal Chef" company is known the country over as a story teller. Some of his funny tales may be heard most anywhere through the east or west. A good many years ago, longer in fact than Mr. Hermesen cares to admit, he was an agent in advance of a cheap repertoire show. One day, said Mr. Hermesen, he got into a small town in Wisconsin. He asked the local manager about prices, advertising and other points of information which the agent is supposed to supply to the manager of the troupe. Then he asked him the dimensions of his stage.

"Have you any traps?" asked Mr. Hermesen, meaning of course openings in the stage, but the local manager misunderstood.

"Really," he replied, "we haven't had a rat in the house for a year."

In another town, this time in Michigan, Mr. Hermesen asked the local manager for what time the orchestra rehearsal had been fixed.

"Four o'clock if it rains, and six o'clock if it doesn't rain," was the reply.

"How do you figure it out?" asked the astonished agent.

"Well, you see the leader of our orchestra drives the city sprinkling cart," replied the manager.

Another time in Chicago, Hermesen was introduced to a man who was said to be wealthy. A few days after the introduction Hermesen received a letter from the gentleman: "I understand you have a very good show. Do you mind sending me two tickets?" it read. Mr. Hermesen's reply was brief, but to the point. "I understand you have lots of money. Do you mind sending me four dollars for the tickets?"

NORTHWEST NEWS

A party of 15 surveyors are running a line northwest and southwest of Coulee, through section 15, in Washington. Residents here have been unable to find whether they are Hill's men or for the Chicago, Milwaukee & St. Paul.

Forty men are employed by the reclamation service near North Yakima on 10 miles of road along the Tieton river. There are seven bridges to be built and repairs to be made on the old road, repairs, etc., all of which will cost \$10,000.

Plans and specifications have been completed for a large parochial school building on the Catholic property in the Johnson addition to Nez Perce. The structure will cost about \$6000, the majority of which has been raised through the efforts of Father Garley of Lewiston.

Sol S. Leachman, one of the pioneers of Idaho, fatally wounded his wife, then fired a bullet through his own head at Lewiston Wednesday. Both are dead, and the cause of the tragedy is unknown. They have been separated for a number of years. Five children survive them.

Suit has been commenced in the Lane county circuit court by Charles H. Chick, a Grand Rapids, Mich. man who purchased several thousand acres of land up the McKenzie during the past few weeks, against J. T. Bridges, ex-register of the United States land office at Roseburg, to force the performance of a contract for the sale of 720 acres of timber land lying in township 17 south of range 42, east in the upper McKenzie country.

NATIONAL IRRIGATION CONGRESS

At the fourteenth National Irrigation Congress, which meets at Boise, September 3 to 8, the district engineer in charge of the various projects being carried on by the reclamation service of the government, will report progress on the work under their direction. The combined statistics will prove very interesting and instructive to the delegates. The special train bringing Vice-President Fairbanks and party to the National Irrigation Congress at Boise is scheduled to arrive at the capital city of Idaho on the morning of September 3. A public reception will be held that evening to the distinguished guests of the congress.

A year ago the government had under construction irrigation projects involving the expenditure of \$50,000,000 and the reclamation of 1,800,000 acres of land. The expenditure of this amount of money will result in creating land values in excess of \$87,000,000, and the lands reclaimed will produce an annual crop of the value of \$27,000,000, or nearly sufficient to pay the sum advanced by the government every year.

TIN LEGGINS IN HARVEST

Waterville Wash. Aug. 25—Not for many years have rattlesnakes been so numerous along the upper Columbia as this season. In the harvest fields lying near the river they were becoming a menace to the men until the cooler weather of the last few days caused many to disappear. Harvesters are often found wearing tin leggins to protect themselves from being bitten by the venomous serpents. On the Emerich farm, lying in the brakes of the Columbia about five miles from this city, it is said that more than 50 rattlers have been killed this season.

DISCOVERED GOLD

Gold has been discovered in the vicinity of Wamic and is creating no small amount of excitement in that section. George Stout and the Steed brothers have been prospecting for some time and at last found pay dirt. The mine is located about three miles above Wamic, on Three Mile creek. From present indications it seems probable that the little village of Wamic, which nestles among the foothills of the Cascade mountains, may in the near future be transformed into a thriving mining camp.—The Dallas Optimist.

GENERAL NEWS

Mrs. Langtry, the famous actress, was hissed at by a large crowd in London Wednesday night, because the play she put on was only a trifling South American episode lasting 20 minutes.

Timothy M. Healy, member of the parliament from North Louth, Ireland who arrived in New York enroute to Chicago, said he believed that with in 10 years the land question would be settled for Ireland.

Sheriff Stough of Fremont county, Wyoming has ordered out Company B of the state national guard to proceed to the Shoshone reservation to assist in preserving order on the new townsite on the reservation, where much trouble is brewing over land rights.

The first through passenger train over the San Pedro, Los Angeles & Salt Lake railway since Sunday, left at midnight Wednesday from Salt Lake, the damage by the recent washout having been repaired. The rainfall in Utah was the greatest of any for 24 years.

Mrs. Kittie Blakeslee was electrocuted in the bath room of her home at Winnipeg, Man., yesterday. She had started to take a bath. She slipped and grasped the lamp socket, which was out of order. This threw the full force of the current through the woman's body, and she was thrown to the bottom of the tub, which had become heavily heated by the electric current.

A NEW ISLAND

A newly formed volcanic island has been discovered among the Aleutian Islands west off the coast of Alaska. The new island made its first appearance in June and is now said to be 300 feet high. Clouds of steam rise from its summits and it is surrounded by boiling water.

CHICAGO'S COLORED POPULATION

According to a late directory, Chicago's colored population has 35 churches, 38 lawyers, 4 newspapers, 40 physicians 14 library clubs, 10 social clubs and 25 women's clubs.—Ex.

WRITE FOR CATALOGUE

THEN--AND NOW

We all know the typewriter has come to stay. We discovered that long ago. It is only a question which typewriter, for the word is well and truly used in the singular sense.

The typewriter that has come to stay is not the one of ten years back, when innovation caused such a stir in business circles. Then nobody ever thought of associating the word "alignment" with a typewriter; it satisfied the user so long as the machine would write some fashion or other, and with constant break-downs ever-present repair bills were paid smilingly. But things are different now. Time tests all things. The business man has become wise. He wants what he pays for. He has learned the value (from dearly-bought experience) of a machine which will write properly, not only the day it is bought, but perpetually. He also wants to be satisfied upon the peculiarities of the many machines now before the public. The individual claims of our product places its position beyond all question, and the few particulars we give on the following pages will, no doubt be found of interest to those buyers who "want what they pay for"

ABOUT THE OLIVER

The No. 3 Model, which has secured such a firm foothold on the universal markets, constitutes what is reckoned as the most perfect typewriter possible.

WHY?

Here is our answer—
IT WRITES IN SIGHT
There is no carriage to lift; no constructional parts to peer over. Your work is there—right before you.

ALIGNMENT

Each type-bar is a double or U-shaped one and the alignment is secured thereby. No slots or so-called "guides" are necessary to preserve the alignment of the Oliver. The U-shaped type-bar does it.

SIMPLICITY

In the construction of the Oliver less than one-half the usual number of parts is employed, consequently what there is to learn is learnt quickly.

MANIFOLDING

The freedom of the Oliver type-bar permits of any desired force, so that in heavy manifolding equally good results are obtained first to last copy. From one to twenty copies can be made simultaneously, without materially increased exertion.

STENCILING

No extra-heavy touch is needed to cut a perfect stencil on the Oliver. The ordinary touch is sufficient, therefore all risk of "cutting out" is avoided. The type of the Oliver cut the finest stencils possible.

OPERATION

The Oliver never tires. Its operation is a pleasure, even when used without intermission. Its touch is beautifully elastic and most responsive. The fastest operator cannot overtake its speed.

NON-LOCKING TYPE-BARS

The type-bars of the Oliver cannot lock, no matter how many keys be depressed at one time.

TYPE CLEANING

The type of the Oliver are not, as with other machines, cleaned individually, but collectively, and the ease with which this cleaning is done makes excuse for dirty type impossible.

LINE RULING

Lines, either vertical or horizontal, and in any color, may be ruled upon paper whilst it is in the machine, and without the aid of a ruler. Ordinarily any necessary ruling is left, of course, until it can be done in the usual way, but is usually forgotten.

REMOVABLE CARRIAGE

The carriage is removed from the machine (for cleaning and other purposes) instantly, without manual interferences with any fastenings whatever, and is just as easily replaced.

PAPER RELEASE

By a single movement absolute freedom is given to the paper, leaving it to be either straightened or otherwise moved in any desired position. No force is necessary, consequently no soiling or tearing of the paper occurs.

CARD WORK

The Oliver typewriter will feed the stiffest and stoutest card as easily as a single sheet of paper.

A WORD ON INVOICING

If there is anything which demonstrates to the full the value of the Oliver for tabular work, it is invoicing. To those users of hidden-writing machines, who attempt to satisfactorily prepare invoices thereon, the utility of such a task must surely be apparent. Mechanical contrivances (known as "tabulators") have been devised, it is true, to assist them, but so much time is lost in setting the mechanism to which must be added the constant raising of the carriage, occasioned by the operator's lack of confidence in the tabulator, that the invoice could very well be written by hand in half the time. Furthermore, tabulators on other than Oliver typewriters, interfere very seriously with vital parts of the typewriter itself, rendering it very unreliable for ordinary use. The Oliver is the ideal machine for invoicing. With its visible writing, permanent printing point, indicator and perfect release key, margins are instantly found and maintained—all with greatest simplicity. No tabulator is necessary on

the Oliver, but, if one is wanted, we supply the best tabulator made. Bear in mind, however, that we save extra cost and give better results.

Again, with the wonderful manifolding power of the Oliver, it will make as many copies of an invoice as required, and every copy clear and distinct.

The use of an Oliver for invoicing insures—
Speed, legibility, efficiency, economy, neatness and regularity.

The Oliver is already adopted by some of the largest business houses for invoicing as well as correspondence purposes, further particulars of which we shall be pleased to furnish on application.

NEWLIN DRUG COMPANY, Agents.

Paid his way.

A young man, who recently graduated from one of the best-known Colleges in the United States, paid his way through comfortably by money earned in taking stenographic notes and furnishing students with type-written copies.

This young man took a course at the Holmes Business College before entering the University, and this training equipped him with knowledge which he was able to turn into money.

There are hundreds of young men and women in all parts of the country occupying positions of prominence, who were helped up the ladder of life by training received at the Holmes Business College.

If you are interested in "Stories of success from real life," we shall be glad to give you the details.

Write for our folder, it is worth getting and worth keeping. We will gladly send it to you post-paid if you will send us your name and address.
