WANTED

Hay, Grain, fruit, in short, All Kinds of Farm Products

We have contracts for 500 tons of hay. We must have the hay to supply our customers. We will pay the highest market prices, spot cash, for all goods. We will also want a great deal of oats, and other grain as soon as they are ready for market. We are ready, at any time, to contract your late winter apples, as we will want a great number of cars to supply our trade. At the present time we are taking a limited amount of small fruits, potatoes and all the fresh eggs you have.

Call on us before You make any Arrangements in Marketing your goods

We have a nice lot of hay and oats in our warehouse which we offer to the local trade in a retail way, at wholesale prices. We have a car of Fancy fresh water melons from Milton, Oregon, due here tomorrow morning. These will be the finest of the season on this market. Buy your melons now while they are good, as the melon season will soon be over for a year.

Hood River is soon to have a fruit fair.

"Weary is the head that wears a crown" certainly applies to Russia at this hour.

It is reported now that Mr. Cannon is not the administration candidate for president. Uncle Joe's friends are certainly doing everything in their power to boom his chances.—Ex.

Every youth who is taught to observe the principles of justice and forbearance becomes an intelligent friend of the doctrine of peace; and every endeavor which aims at such instruction is deserving of the highest commendation.—President McKinley.

Everybody will take a crack at the President for inaugurating reform in spelling, as far as official correspondence is concerned. Some will hail it with delight, others will refuse to depart from traditional custom. It is mighty hard to please all of our 80,000,000 people.

A well informed and practical sawmill man stated that at the present rate of consumption of our vast forests in Union county it would require considerable over one hundred years to cut up the product. This will give our readers some idea of the immense wealth that will be annually harvested from our timber lands for many many years to come.

Mr. Harriman wants all his employes to buy stock in the road on which they work, and says they ought to be discharged if they do not. But perhaps when all the household and other expenses are paid, an employe has only about 30 cents left. That wouldn't buy much stock. An employe's salary and Mr. Harriman's are quite different.—Ex.

More than 60 of the most prominent men of the country will take part in the proceedings of the National Irrigation congress, to be held at Boise, September 5 to 8, delivering addresses on the various subjects to be discussed. They include governors, United States senators, members of congress, cabinet and department officers and well known irrigationists.

A pleasant surprise awaits the delegates to the Fourteenth National Irrigation congress, which meets at Riverside park theatre the night of September 5. Visitors will learn that the culture of Boise musical talent is as well advanced

THOSE WEEDS AGAIN

The time is rapidly approaching when it will rain, and the ground will be well moistened and roots therein will revive and prepare to send forth new growths, and none of these more cheerfully or successfully than those of the burdocks and thistles and other weeds, the tops of which, we regret to say, are for the most part uncut in time to prevent the seed from maturing and falling. Yet a good deal could be done in the few days remaining before the fall rains set in to clear lots of these disagreeable and injurious weeds and to prevent their seed from becoming distributed, rooted, and bearing other like crops.

The subject is tiresome, we suspect, but we cannot forbear making this final appeal to owners of vacant grounds to clean them of weeds, and to the city officials to enforce the law to a far greater extent than has been done.—Oregon Journal.

If property owners will do a little figuring they will find that cement walks are cheaper in the long run. The board walks have to be renewed often, while cement properly laid will last a life time with a little patching. In the most progressive cities cement walk is laid almost exclusively of late years, and in addition to durability they are neater in appearance and very much cleaner.

THE PROOF OF THE PUDDING IS THE EATING

So say the good housewives who cannot put up fruit with beet sugar. But they forget that there are thousands of their sisters who never used any other than beet sugar and who secure the most excellent results. Might not the trouble be with the cook and does such a cook always have success with cane sugar? Each housewife can answer these questions for herself, but it is certain that if one cook can always have good results from the use of beet sugar, the trouble is not in the sugar. Then the trouble must be with the cook and the statement that she can't use beet sugar in putting up fruit, is merely an acknowledgement that she is not as good a cook as her neighbor who uses nothing else but beet sugar and always has the best of results.

Don't blame the sugar till you are convinced that no one else can use it, but find out how they do it. It's too much like blaming the flour because the bread is sour.

Ask your grocer for La Grande Sugar and don't let him give you any other. It is the only sugar made in Oregon and it is made in La Grande, from the native elements of our own beautiful valley.

PAYING INVESTMENT

Fred King, one of the Blue Mountain Creamery patrons, is a firm believer in the profitability of the dairy business. This morning he stopped in at the Observer Office and exhibited his monthly cream check which amounted to sixty five dollars. Mr. King milks eight cows and after deducting an amount sufficient for home consumption he still sold cream for which he received sixty-five dollars. Mr. King keeps a careful record and finds that during the past three months his cows have made on an average of exactly eight dollars per month per head. Mr. King has a right to think that cows pay in Union county.

CAN YOU BEAT IT?

J. E. Kilborn, the well driller, who resides at 219 Jefferson street, brought to the Guard office this morning a Gravenstein apple that is a wonder. It weighed a pound and three quarters and is 17 inches in circumference. It was grown on a tree in his yard.—Eugene Guard.

A LITTLE TALK ON ICE CREAM SODA

NOT BETTER THAN THE BEST
BUT BETTER THAN THE REST

To maintain the reputation we have acquired for supplying the needs of our many patrons in every department, a reputation we point to with pardonable pride, we want, now, to advise you that we have opened our soda fountain with a new line of crushed fruits and fruit juice which excel any which we have ever had, and while we may occasionally find a party who has never tried one of our delicious ICE CREAM SODAS we find a hundred who have, and do, and always will, because they want the best and appreciate a fine article. We have some new flavors this year which are going to be of universal favor on account of their delicate flavors. Hoping you will kindly favor us with an early call, so we may show you.

We are respectfully,

A. T. HILL
