**METHODISTS GET OWNERSHIP
 OF WEISER ACADEMY**

Formerly Operated by Congregationalists now Converted into
 Methodist Academy

At the recent session of the Idaho conference held at Idaho Falls, the Commercial Club of Weiser Idaho made a proposition to the Conference in which they agreed to purchase the Weiser Academy and present the same to the Idaho conference for immediate use, and, at the end of five years, provided they have maintained it successfully, and desire to continue, the entire property will be deeded to the conference free from all incumbrance.

On Tuesday August 28th the commission, appointed by the conference to consider the proposition met at Weiser, and voted unanimously to accept the offer. Steps will be taken at once to put everything in readiness so that the school can be opened by Oct. 1st, for work of the Fall Term.

The academy will be known in the future as the Jason Lee Academy of Methodist Episcopal Church in memory of that intrepid hero of religious works who did so much to lay the foundations of the great empire of the North West. The Commission, which by vote of the conference now constitutes the Board of Trustees is as follows: Presiding Elder J. D. Gillilan of La Grande, President of the board; Rev. G. W. Barnes of Boise P. E. of the Boise district; Rev. G. H. Ross of Meridian Idaho Hon B. L. Steeves, Lieutenant Governor of Idaho and Mr F. S. Harding Treas of the Board both of Weiser Idaho; Mr. R. C. Madden of Caldwell and C. C. Anderson of Boise Mr. G. H. Currey and Rev. B. F. Meredith secretary, both of La Grande Ore.

The academy is situated about a mile from the center of the town of Weiser, on a flat eminence overlooking the beautiful valley of the Snake river. The property consists of 3 main buildings, two dormitories and a recreation hall, and three smaller buildings, and a well equipped gymnasium. There will be 85 acres of

land included in the grant, which will be put under cultivation, as soon as the proposed plan of the city council for irrigation has been completed.

Up to the present time the academy has been maintained by the Congregational church, but owing to the presence in the same town of an Agricultural institute, under the patronage of the same church, the academy has not been successfully maintained. It is confidently believed, however, that under the large patronage of the Methodist church, it will supply a long felt need; and as a Christian Home school will prove a great blessing to thousands of young people in our scattered towns, and that it can and will be a success.

There will be three courses of study—Classified, Musical and Commercial, under competent instructors.

Rev. B. F. Meredith, pastor of the Methodist church of this city and secretary of the board of trustees has been authorized to devote whatever time can be spared from his regular work, soliciting students and funds. He expects to canvass the conference territory for the next six weeks.

The buildings were thoroughly renovated throughout only a year ago and are fully furnished and ready for occupancy. It is estimated that about \$5000 will be needed for equipment and maintenance for the 1st year. It is hoped that this fitting monument to the memory of our first Missionary, Jason Lee, will appeal to a wide circle of friends, and that assistance will be received from a wide radius. Already five members of the conference, out of their meager salaries, have subscribed \$175 towards the expenses of the present year.

Contributions may be sent to the Treasurer, Mr. F. S. Harding, of Weiser, or to the Secretary, B. F. Meredith, of La Grande, Oregon.

ACCIDENT AT WALLA WALLA

A man named Emil Cameron had his right arm ground to pieces at the depot at Walla Walla yesterday afternoon. The injured man was a passenger on the Spokane-Pendleton flyer and during the stop at Walla Walla he had gone to a nearby restaurant. Running to reboard the train he was caught between the platform and buffet car and carried to the ground. After the train had passed the member was terribly mangled. The man is a former employee of the O. R. & N. as he carried switch keys similar to those used.

RESIDENCE FOR SALE OR TRADE

A five room house, with four lots, two blocks from new school house, sells cheap and on terms or trade, inquire at this office before Sept. 10.

A hard lot

of troubles to contend with, spring from a torpid liver and blocked bowels, unless you awaken them to their proper action with Dr. King's New Life Pills; the pleasantest and most effective cure for Constipation. They prevent Appendicitis and tone up the system. 25c at Newlin Drug Co.

THEN--AND NOW

We all know the typewriter has come to stay. We discovered that long ago. It is only a question which typewriter, for the word is well and truly used in the singular sense.

The typewriter that has come to stay is not the one of ten years back, when innovation caused such a stir in business circles. Then nobody ever thought of associating the word "alignment" with a typewriter; it satisfied the user so long as the machine would write some fashion or other, and with constant break-downs ever-present repair bills were paid smilingly. But things are different now. Time tests all things. The business man has become wise. He wants what he pays for. He has learned the value (from dearly-bought experience) of a machine which will write properly, not only the day it is bought, but perpetually. He also wants to be satisfied upon the peculiarities of the many machines now being dealt by the public. The individual claims of our product places its position beyond all question, and the few particulars we give on the following pages will, no doubt be found of interest to those buyers who "want what they pay for"

ABOUT THE OLIVER

The No. 3 Model, which has secured such a firm foothold on the universal markets, constitutes what is reckoned as the most perfect typewriter possible.

WHY?

Here is our answer—
IT WRITES IN SIGHT
 There is no carriage to lift; no constructional parts to peer over. Your work is there—right before you.

ALIGNMENT

Each type-bar is a double or U-shaped one and the alignment is secured thereby. No slots or so-called "guides" are necessary to preserve the alignment of the Oliver. The U-shaped type-bar does it.

SIMPLICITY

In the construction of the Oliver less than one-half the usual number of parts is employed, consequently what there is to learn is learnt quickly.

MANIFOLDING

The freedom of the Oliver type-bar permits of any desired force, so that in heavy manifolding equally good results are obtained first to last copy. From one to twenty copies can be made simultaneously, without materially increased exertion.

STENCILING

No extra-heavy touch is needed to cut a perfect stencil on the Oliver. The ordinary touch is sufficient, therefore all risk of "cutting out" is avoided. The type of the Oliver cut the finest stencils possible.

OPERATION

The Oliver never tires. Its operation is a pleasure, even when used without intermission. Its touch is beautifully elastic and most responsive. The fastest operator cannot overtake its speed.

NON-LOCKING TYPE-BARS

The type-bars of the Oliver cannot lock, no matter how many keys be depressed at one time.

TYPE CLEANING

The type of the Oliver are not, as with other machines, cleaned individually, but collectively, and the ease with which this cleaning is done makes excuse for dirty type impossible.

LINE RULING

Lines, either vertical or horizontal, and in any color, may be ruled upon paper whilst it is in the machine, and without the aid of a ruler. Ordinarily, any necessary ruling is left, of course, until it can be done in the usual way, but is usually forgotten.

REMOVABLE CARRIAGE

The carriage is removed from the ma-

chine (for cleaning and other purposes) instantly, without manual interferences with any fastenings whatsoever, and is just as easily replaced.

PAPER RELEASE

By a single movement absolute freedom is given to the paper, leaving it to be either straightened or otherwise moved in any desired position. No force is necessary, consequently no soiling or tearing of the paper occurs.

CARD WORK

The Oliver typewriter will feed the stiffest and stoutest card as easily as a single sheet of paper.

A WORD ON INVOICING

If there is anything which demonstrates to the full the value of the Oliver for tabular work, it is invoicing. To those of hidden-writing machines who attempt to satisfactorily prepare invoices thereon, the utility of such a task must surely be apparent. Mechanical contrivances (known as "tabulators") have been devised, it is true, to assist them, but so much time is lost in "setting" the mechanism, to which must be added the constant raising of the carriage (occasioned by the operator's lack of confidence in the tabulator), that the invoice could very well be written by hand in half the time. Furthermore, tabulators on other than Oliver typewriters, interfere very seriously with vital parts of the typewriter itself, rendering it very unreliable for ordinary use.

The Oliver is the ideal machine for invoicing. With its visible writing, permanent printing point, indicator and perfect release key, margins are instantly found and maintained—all with greatest simplicity. No tabulator is necessary on the Oliver, but, if one is wanted, we supply the best tabulator made. Dear in mind, however, that we save extra cost and give better results.

Again, with the wonderful manifolding power of the Oliver, it will make as many copies of an invoice as required, and every copy clear and distinct.

The use of an Oliver for invoicing insures—
 Speed, legibility, efficiency, economy, neatness and regularity.

The Oliver is already adopted by some of the largest business houses for invoicing as well as correspondence purposes, further particulars of which we shall be pleased to furnish on application.
