WANTED

Hay, Grain, fruit, in short, All Kinds of Farm Products

We have contracts for 500 tons of hay. We must have the hay to supply our customers. We will pay the highest market prices, spot cash, for all goods. We will also want a great deal of oats, and other grain as soon as they are ready for market. We are ready, at any time, to contract your late winter apples, as we will want a great number of cars to supply our trade. At the present time we are taking a limited amount of small fruits, potatoes and all the fresh eggs you have.

Call on us before You make any Arrangements in Marketing your goods

We have a nice lot of hay and oats in our warehouse which we offer to the local trade in a retail way, at wholesale prices. We have a car of Fancy Fresh water melons from Milton, Oregon, due here tomorrow morning. These will be the finest of the season on this market. Buy your melons now while they are good, as the melon season will soon be over for a year.

Wages in all vocations are better paid and labor is harder to secure than ever heretofore known in Union county.

Baker City is talking of having a street carnival. Well, she has had them before and ought to know what to expect.

There are a number of pay rolls in this city and in nearly every instance they would be increased if labor could be secured.

Fall business is beginning to pick up. Our streets show the signs of renewed activity, and business men all report a satisfactory trade for the summer and have every reason to anticipate an unusually large fall and winter trade.

While the United States may not hope that our general prosperity that is now so lavish will continue for all time to come, yet the great Pacific northwest, the new Eureka, for investment, is certainly entering upon an era that insures prosperity for many years.

The people generally are beginning to demand that President Roosevelt be the Republican Standard bearer in 1908. The President says no, but he is only human and if the demands come sufficiently strong from the great mass of the common people, it is thought that he may consider the call. It is true that he possibly has achieved all of the glory and honor that the office is capable of conferring, but if he is convinced that he can further the interest of the people as a whole, better than a new executive, he will doubtless consider it his duty, and where duty directs the efforts of Theodore Roosevelt, there is where he is found with all of his energy and wonderful ability.

A little more than one year ago the Oaszkvix announced that there was a possibility of La Grande securing a large industry which would give the city another pay roll. It has been secured. The Oaszkvix at that time had reference to the Palmer Lumber Company. The Oaszkvix desires to state at this time, and this is all that we can state at this time, that within another twelve months the chances are as good for us to secure another enterprise as it was for us to secure the Palmer Lumber Company twelve months ago, which means if secured as large a pay roll. Everything at present is coming our way, and if those interested are not

forestalled by unexpected circumstances that do not seem probable, it may be given to the public within the next few months. This country has arrived at the point where large capital can be profitably invested. Such being the case, capital is always on the alert for such opportunities and the opportunity in this instance is seemingly assured.

Since John D. Rockefeller returned from Europe a few weeks ago he has expressed a desire that he and the public should become better acquainted. The Federal Government has evidently resolved that it shall do all in its power to gratify this alleged desire. It is spending considerable of the money of the people in fact, to bring about that better acquaintance. Agents of the Attorney-General went to Cleveland a couple of months ago before a federal grand jury there, and proceeded to secure a large amount of sworn evidence concerning Mr. Rockefeller's business methods. It was found that that particular jury lacked the jurisdiction necessary to carry out the Attorney-General's plans, and the evidence secured was taken before a federal grand jury in Chicago. Last month this second jury, in about four hours' time, brought in as a first instalment of its work, an indictment, with nineteen counts, against the Standard Oil Company for accepting rebates from the Lake Shore Railway, in the guise of free storage for its oil. A little later a third federal grand jury, sitting in Jamestown, N. Y., made a diligent effort to increase its acquaintance with Mr. Rockefeller, and as a result brought in an indictment against the Standard Oil Company and one of its subsidiary companies. This indictment contained twenty three counts, all of them for receiving rebates from the Pennsylvania company. A similar indictment was brought in against that company.—Current Literature.

A LITTLE TALK ON ICE CREAM SODA

NOT BETTER THAN THE BEST
BUT BETTER THAN THE REST

To maintain the reputation we have acquired for supplying the needs of our many patrons in every department, a reputation we point to with pardonable pride, we want, now, to advise you that we have opened our soda fountain with a new line of crushed fruits and fruit juice which excel any which we have ever had, and while we may occasionally find a party who has never tried one of our delicious ICE CREAM SODAS we find a hundred who have, and do, and always will, because they want the best and appreciate a fine article. We have some new flavors this year which are going to be of universal favor on account of their delicate flavors. Hoping you will kindly favor us with an early call, so we may show you. We are respectfully,

A. T. HILL
