THE TIME MAY COME

when a better cigar will be made for the money than the C. B. but not in your generation, my dear sir. There are no better cigars made for the money this day. Try one and be convinced. Don't finish the box if the first one doesn't suit you—back goes the money if you don't like the C. B. cigar.

CENTRAL RAILWAY PROGRESS

(Weekly Republican.)

The Central railroad people are making fair headway in the matter of laying steel and grading on the road. At the present time steel is laid almost to the Ed. Miller place, and a gang of about thirty men are employed on the work. There is plenty of steel in sight to complete the road to Cove.

The grading force is now working in the vicinity of the Conly place near the Grande Ronde river, on the La Grande branch, and is making good headway.

A small force was this week put on the work of grading a spur in the vicinity of the Taylor Green place, where there is a big sugar beet acreage.

The work of back-spiking that part of the Cove branch from the main line to the steel gang has been under way this week also.

New York representatives of the company are in Union and will soon make a tour of inspection of the proposed line up Catherine Creek through the copper-mining and timber district, with a view to extending the line up that way as soon as possible.

Considering the labor handicap, the Central people are making as good headway as might be expected. Labor is king just now and must be handled with much care or it will be hard to hold.

Summed up, the steel-laying is going along, grading is under way, there is plenty of steel here and in sight to run to Cove, and the company is doing its level best to push the work.

This seems to be about the situation today.
