If the attorney general goes ahead and collects the \$147,500,000 in fines for which the Standard Oil stands liable, won't that be a long step towards government ownership.

When Cassie Chadwick has completed her term of service, it might be a good business stroke for her to open a correspondence school for the purpose of teaching women how to be bankers by mail.

James K. Jones, twice chairman of the National Democratic committee has written to Bryan advising the latter to entirely drop the subject of government ownership of railroads and take a firm stand for the enforcement of the present law.

It pays to read the advertisements of enterprising home merchants. They are the people who make a town a trade center. You should remember that they bring the conveniences, necessities and many of the luxuries of life right to your door and as a rule sell you honest goods at a small profit.—Ex.

If you have not yet secured a copy of the premium list for the Union county fair do so at once. There is much therein which will interest you. The fair will be much more of a success perhaps than you have given it credit for. Remember the gates will be open next Tuesday. Be on hand with your exhibits.

Thomas A. Edison seems to have hit upon a valuable idea outside of electricity. He proposes that moulds be made for a house of a given design, so that liquid concrete can be poured into it. He estimates that in this way a house worth \$12,000 can be built for \$600. The thing looks feasible.

There is no reasonable excuse for any man to live in a town if he does not like it. If you have no word of commendation to say for your town, its institutions or people, emigrate. You won't stop the town clock by going away. The church bells will have the same musical ring, the little dogs will play just as well and the fresh air, bright sunshine and sparkling water will have the same healthy properties. Speak a good word for your neighbor if you can, if you cannot don't ever enlarge on his faults. If you have become thoroughly disgusted, move away; go somewhere where things will suit you.

Not until next Independence day will the new star be added to the flag. The formal work of making a state takes time and care.

The Louisville Courier-Journal says the Kentucky editors at Grayson Springs were "shut off completely from all drinks except plain unvarnished water." Yes, but why should it be considered of sufficient importance for newspaper mention?

Vice-president Fairbanks undoubtedly feels that he has shown himself to be very brave and courageous by taking advantage of the opportunity offered yesterday at Chicago, but if municipal ownership had no more potent enemy than a man who must wait for his superior officer to die before he comes in for a show, there would be little cause for worry on the part of the advocates of municipal ownership.

The record of conviction in the Oregon timber cases ought to demonstrate conclusively that political thievery doesn't pay and that the day of the grafter is waning. There has been altogether too much of the idea that everything goes with the party in power, and the public may be legitimately plundered by those who happen to be in a position to so shape public affairs that thievery is made easy. The long list of convictions in the cases named ought to be an object lesson in politics, and should impress upon the rising generation the importance of political integrity, though it may seem somewhat of a novelty to place integrity and politics in the same list.—Union Republican.

### Is Disease a Crime?

Not very long ago a popular magazine published an editorial article in which the writer asserted, in substance, that all disease should be regarded as criminal. Certain it is that much of the sickness and suffering of mankind is due to the violation of certain of Nature's laws. But to say that all sickness should be regarded as criminal, must appeal to every reasonable individual as radically wrong.

It would be harsh, unsympathetic, cruel, yes, criminal, to condemn the poor, weak, over-worked housewife who sinks under the heavy load of household cares and burdens, and suffers from weaknesses, various displacements of pelvic organs and other derangements peculiar to her sex.

Frequent bearing of children, with its exacting demands upon the system, coupled with the care, worry and labor of rearing a large family, is often the cause of weaknesses, derangements and debility which are aggravated by the many household cares and the hard, never-ending work which the mother is called upon to perform. Dr. Pierce, the maker of that world-famed remedy for woman's peculiar weaknesses and ills—Dr. Pierce's Favorite Prescription—says that one of the greatest obstacles to the cure of this class of maladies is the fact that the poor, over-worked housewife can not get the needed rest from her many household cares and labor to enable her to secure from the use of his "Prescription" its full benefits. It is a matter of frequent experience, he says, in his extensive practice in these cases, to meet with those in which his treatment fails by reason of the patient's inability to abstain from hard work long enough to be cured. With those suffering from prolapsus, anteversion and retroversion of the uterus or other displacement of the womanly organs, it is very necessary that, in addition to taking his "Favorite Prescription," they abstain from being very much, or for long periods, on their feet. All heavy lifting or straining of any kind should also be avoided. As much out-door air as possible, with moderate, light exercise is also very important. Let the patient observe these rules and the "Favorite Prescription" will do the rest.

Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. R. V. Pierce, Buffalo, N. Y., 25 convenient stamps for paper-covered or 11 stamps for cloth-bound.

If sick consult the Doctor, free of charge by letter. All such communications are held strictly confidential.
