Banker Stensland is said to have four trunks of clothes. All the same, the state of Illinois will insist upon giving him one more suit.

The big apples were certainly in evidence at the fair this week. The time is near at hand when we will be shipping just such stock as being exhibited, in train loads.

There should have been an automobile race at the fair. There are a number of good machines in the county. If not a race an auto parade would have been quite an attraction.

The large monthly payroll of the Grand Ronde Lumber Co. at Perry has been of great benefit in past years to La Grande and will continue so to be for many years to come.

In Pennsylvania the other day seventy people celebrated the thirtieth birthday of a horse. At any rate, that is an improvement on the Newport dog and monkey society events.

Portland is doing some very judicious advertising by endeavoring to raise three hundred and fifty thousand dollars for an up-to-date Y. M. C. A. home for her young business men. Such actions speak much louder than would many words.

In his "Confessions of a Drone," Jos. Meddill Patterson, the millionaire socialist, laments because the wealth produced by workmen has "by some hocus pocus been transferred to me." Why not transfer it back, instead of gabbling about it.

There is no question but what the New York gubernatorial race will be exceedingly interesting. In case Mr. Hearst is victorious he will undoubtedly use his prestige to secure the nomination for president and his party opponents therefore may not be as enthusiastic in this race as they other wise might be. Be that as it may he will have an opponent in Mr. Hughes that is worthy of his steel.

The stock exhibit at the fair is worthy of special mention. Union county for years has held an enviable reputation for high grade horses and within the past few years there has been great improvement in cattle. We have as fine Herefords, Shorthorns and Jerseys as there are to be found in the state. Neither do we take a back seat when it comes to sheep, hogs and poultry.

It is a conservative estimate that at least fifty new homes will be built in La Grande next year as a direct result of the erection of the big saw mill now in course of construction. Add to this our natural growth and it is evident that 1907 will be a building year in La Grande.

The unusual interest manifest at the fair this week at the exhibit of gasoline engines for irrigation purposes is indicative of the general growing interest in irrigation. There will be many individual pumping plants installed in this valley during the next few years. Gasoline will furnish the power in not a few instances while electric power will be used for asimilar purpose.

A LITTLE TALK ON ICE CREAM SODA

NOT BETTER THAN THE BEST
BUT BETTER THAN THE REST

To maintain the reputation we have acquired for supplying the needs of our many patrons in every department, a reputation we point to with pardonable pride, we want now, to advise you that we have opened our soda fountain with a new line of crushed fruits and fruit juice which excel any which we have ever had, and while we may occasionally find a party who has never tried one of our delicious ICE CREAM SODAS we find a hundred who have, and do, and always will, because they want the best and appreciate a fine article. We have some new flavors this year which are going to be of universal favor on account of their delicate flavors. Hoping you will kindly favor us with an early call, so we may show you, We are respectfully,
