NEW INDUSTRY IN CORN COBS

A new industry is being developed by the department of agriculture. Investigations have proved that corn cobs are of large commercial value for the manufacture of alcohol. Department experts have been busy with corn cobs at a cannery in Hoopston, Ill. A ton of green cobs, that have formerly been waste, will make 11 gallons of alcohol. A ton of green corn stalks will also yield alcohol to the amount of 6 to 15 gallons. The suggestion now is that distilleries be established in connection with canneries. The new denatured alcohol law opens the way not only for cheap fuel but for big profits from many farm products that have been going to waste.

FRAUD ORDERS

The postmaster-general at Washington has issued fraud orders against the Co-operative Land company of Minneapolis, Minn. and M. Wheatcraft company, W. B. Levy, general manager, and Dr. W. B. Levy, Box 960, Jacksonville, Fla., and Box 1055, New York City. The fraud order against James B. Goode of St. Louis, Mo., has been revoked.

TEXAS LEADS

Texas produced more crude petroleum in 1904 than has ever been credited to a single state in one year—30,400,000 barrels. California's output from its oil fields in 1904 was 29,600,000 barrels, taking first place up to that time. The 1905 output in Texas was an increase of 8,000,000 barrels over Texas' record in 1904.

SHORT CROP

The apple crop in the John Day valley is very short yet prices charged are not unreasonable, first-class fruit selling for \$1.50 per box.—Canyon City Eagle.

MORE CARS FOR HARRIMAN

According to the Railway Gazette of September issue, the Harriman companies have ordered, for delivery next spring, 4050 box cars and 1450 flat cars, to be distributed over the following lines: Union Pacific, Oregon Short Line, Oregon Railroad & Navigation company, Pacific system, Morgan's Louisiana & Texas, Louisiana, Western & Cananea, Yazoo River & Pacific. Harriman has also ordered 625 oil tank cars, 600 gondola cars, 6000 stock cars and a number of dump cars.

With about 400 miles of new trackage now under construction in the Lewiston, Klamath and Coos Bay projects, a large amount of additional equipment will be needed next year to meet requirements of traffic on the new lines.

It is said the new cars ordered will be distributed over so wide a territory and so many thousands of miles of road that they will literally be lost in the shuffle. The systems named operate upwards of 12,000 miles of track.

The Northern Pacific has ordered 4000 box cars and is now in the market for 1500 box cars and 1000 steel dump cars.—Ex.

YOUR CASE AND OSTEOPATHY

You say, "I can see how Osteopathy can cure some things, but I do not see how it can help me."

As usual you have never thought of a cause for your trouble. With slight displacements of ligaments, muscles and bones, especially of the spine and ribs, with the nerve and blood supply disturbed thereby, any form of disease may result, depending on the nature of the interference.

The Osteopath can remove this cause in one disease as well as another. The cure then depends on Nature's power to repair the damage.

All curable diseases, acute and chronic have been cured by Osteopathy. The following is a partial list in which marked success has been attained: Tonsillitis, dyspepsia, constipation, diarrhoea, dysentery, appendicitis, acicis, gall stones, cystitis, enlarged prostate, "gravel," anaemia, goitre, dropsy, grippe, croup, bronchitis, asthma, hay fever, pneumonia, pleurisy, malaria, typhoid and all fevers, measles, erysipelas, paralysis, epilepsy, neuralgia, sciatica, nervous prostration, eczema, St. Vitus dance, spinal curvature, impotency of men, milkig, female diseases and rheumatism (in worst forms); many forms of heart disease, diabetes, Bright's disease, consumption (except in far advance cases) and eye troubles.

PROMPT DELIVERY
