It begins to look as tho William Randolph Hearst will meet his Waterloo on the 6th of next November.

It is stated that there yet remains 400,000 acres of school land in this state which can be purchased on the installment plan.

Fruit growers in Payette have organized. The main object is to secure a uniform pack and there by in time merit a reputation for strictly first class fruit.

While there are many reasons why our state elections should be held in November it is nevertheless quite a relief that we have passed through our political agonies and can patiently await the election returns next month.

It looks as though there may still be a little trouble in Cuba before the United States restores the people to their sovereignty. The insurgents are perhaps fighting because it is a habit with them. When they started it was because of Palma—now they are having a hard time to quit.—Spokane Chronicle.

FREE BUFFALO HIDES

The treasury Department is seeking in the circuit Court of New York the reversal of a decision by the Board of Appraisers in New York that East Indiana buffalo hides are entitled to free entry. The question at the issue is whether such are to be regarded as "hides of cattle" as the term is used in the tariff or as hides specially provided for.

The Treasury Department maintains that these buffalo hides are hides of cattle and are therefore subject to 15 per cent duty. Several years ago the question as to the classification of these so-called buffalo hides came up and was passed upon by the Board of Appraisers and the Federal Courts. All of the tribunals found against the importers. The matter then went along for some years when the importers presented another case to the Board of Appraisers which ruled in their favor sustaining the claims of free entry. The Treasury department does not accept this ruling which was against the previous decision of the courts, and has decided to have the matter again submitted to the courts with a view to having these so-called buffalo hides designated as hides of cattle. The issue is of great interest to the tanning and shoe-making industries.

DR. STILL ON FLUX AND DYSENTERY

"Some of my greatest successes have been in this line. One of my earliest cases was a little boy of four, at Macon, Mo. He was trudging along the dusty road with his destitute mother. Taking the little fellow up, I began fumbling along the spine. Some places I found hot, some cold. Going deeper I found rigid and loose places in the muscles and ligaments of the entire back, while the lower spinal muscles and tissues were in a badly congested condition. I worked for a few minutes on that basis and told the mother to report next day. She came the next morning saying that her child was well. Flux was then prevalent in Macon, where I was visiting when this occurred. That mother brought other sick children. As near as I can remember I had seventeen severe cases of flux and cured all without drugs. Other cases of summer and fall diseases I was called to treat and soon found myself burdened with a large practice."

(Diary of Dr. A. T. Still.) Osteopathy.

STARVING TO DEATH

Because her stomach was so weakened by useless drugging that she could not eat, Mrs. Mary H. Walters, of St. Clair St., Columbus, O., was literally starving to death. She writes: "My stomach was so weak from useless drugs that I could not eat, and my nerves so wrecked that I could not sleep; and not before I was given up to die was I induced to try Electric Bitters; with the wonderful result that improvement began at once, and a complete cure followed." Best health tonic on earth. 50c. Guaranteed by Newlin Drug Company druggist.

Treating Wrong Disease.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here and there, and in this way they all present themselves and their easy-going and indifferent or overbusy doctor, separate and distinct diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, ignorant of the cause of suffering, encourages this practice until large bills are made. The suffering patient gets no better, but probably worse, by reason of the delay, wrong treatment and consequent complications. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause would have promptly removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native medicinal roots and is perfectly harmless in its effects to any condition of the system.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly tonic, being unequalled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nerve-line "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, neuralgia, hysteria, spasms, chorea, St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One or three a dose. Easy to take as candy.
