

# Fall Opening

After months of diligent search we have completed our Fall Purchases. Goods have been arriving for the last six weeks and from time to time we have been able to give you a glimpse of the many new lines that we will carry during the coming season. Our stock is complete and we cordially invite you to attend our formal FALL OPENING

Without indulging in self praise we feel this year we can serve you better than ever before---better goods, larger assortment, more novelties---and in spite of the rising market at practically the same prices as prevailed last year.

As this is an occasion, especially for displaying our merchandise we want you to feel that you are welcome---whether ready to buy or not---we want you to know what you can buy at our store and what you have to pay

## THREE TONS OF SECURITY

Cashier F. L. Meyers yesterday ordered a three ton Manganese safe of the very latest design which will be installed in the new home of the La Grande National Bank. This safe is near perfection and approaches as near the burglar proof as a mechanical genius has been able to devise. This modern "strong box" will cost the bank the neat sum of two thousand dollars by the time it has been placed upon its foundation. At the time the order for the safe was given the steel lining and doors for the cash vault was also ordered these last items represent an investment of four thousand dollars making an expenditure of six thousand dollars in order to properly protect the value entrusted in care of the bank.

## A NEW RECORD

A glance at the ad of the La Grande National Bank in this issue shows a new record in the banking history of this city and county. It is the first statement of any bank in the county to show resources in excess of \$1,000,000. Also a new record in deposits, being in excess of three quarters of a million dollars. Such a showing is only possible in a progressive and prosperous community. This country is on the eve of many new records and naturally the banking institutions are the first to reflect improved conditions.

## NEW HOPE FOR DYSPEPTICS

We insist that associated with well known factors, other undelying and predisposing causes are to be found in the spinal anatomy which, before the rise of the Osteopathic school were over looked. We contend, with our experience in locating and remedying these abnormal conditions of one's anatomy--usually along the spine--and in observing the benefits that follow, that such physical defects (known as Osteopathic "lesions") are primarily the first causes of dyspepsia, as a usual thing, while these better known factors are but secundar causes.

## SMALL GRAIN CROP

Threshing in the valley is practically finished. It is estimated that the grain yield this year will fall at least \$0,000 bushels short of last year's yield. This shortage is caused by numerous ranchers putting in alfalfa.--Joseph Herald.

Miss Elsie Leadsworth, who is employed as a telegrapher in Baker City is expected home tonight for a Sunday visit with her parents.
