It takes the world a long time to learn that the vapor of benzine and gasoline is as dangerous and deadly as gunpowder.

Russell Sage's true greatness is now measured. He made a will which the lawyers not only could not break, but could not even contest at a profit.

If there is anything that will make the Americans favor a parcel post by this government, it is the high charges which the express companies exact for small parcels.

Judge Alton B. Parker of New York declares it to be a public duty to put a crimp in the ambition of William R. Hearst. The crimp will be duty affixed in November.

One of the important duties of the next legislative assembly will be to make a fair, honest and just apportionment of the State into legislative districts, according to the census taken last year. This County has sufficient population to entitle her to a member of the house of representatives without being hooked onto Union County, as at present, if the apportionment is honestly made.—Wallowa Democrat.

### ONE LITTLE HOUR

One hour a day withdrawn from frivolous pursuits, and profitably employed, would enable any man of ordinary capacity to master a complete science, says an exchange. One hour a day would make an ignorant man a well informed man in ten years. One hour a day would earn enough to pay for two daily and two weekly papers, two leading magazines and a dozen good books. In an hour a day a boy or girl could read twenty pages thoughtfully—over seventeen thousand pages or eighteen volumes in a year. Another hour a day might make all the difference between bare existence and useful, happy living. An hour a day might make—nay, has made, an unknown man a famous one, a useless one a benefactor to his race. Consider then, the mighty possibilities of two, four, yes six hours a day that are, on the average thrown away by some of our young men and women in their desire for fun and diversion.
