HEARST AS MARTYR OR GOVERNOR

(Scripps News Association)
New York, Oct. 30.—Leading Republicans fear that if W. R. Hearst is defeated by a narrow margin and the cry of "robbery" already on the lips of the independence league leaders the hue will be stronger than ever after election. Woodruff and others are worrying greatly and say that Hearst as a martyr will be worse than Hearst as governor.

LABORERS IN THE SOUTH

(Scripps News Association)
Nashville, Oct. 30.—So great is the scarcity of labor in the southern states that it is feared that portions of the cotton crop in the Mississippi valley can never be gathered. The labor problem is so serious confronting not only planting but manufacturing interests—that the courts have been called on to close up all dives in the cities and drive all loiterers out in order that the cotton crop can be saved. So serious has the labor scarcity effected Jackson Miss., that the proprietors of the manufacturing establishments have announced that if things continue as they are they will have to close down their works. At Vicksburg Miss., the court ordered all the unemployed negroes out of the city. Today the Federal Government is being petitioned to deal with the matter.

ENGLAND OBJECTS TO FRIENDSHIP

(Scripps News Association)
Washington, Oct. 30.—It is hinted here that British influence may be behind the anti-American sentiment which has been agitating questions of exclusion of Japs in San Francisco in order to have the apparent growing bond of attachment between the Japanese and American governments.

England has many interests in the far east and it is very plausible that she should look askant at the seeming friendship growing between these two countries.

WHAT ENGLAND THINKS

London, Oct. 30.—In reply to questions directed at the government, Secretary Gray, of the House of Commons, this afternoon said that there is little likelihood of a war between America and Japan over the San Francisco schools. MRS. EDDY ON VERGE OF PHYSICAL BREAKDOWN

(Scripps News Association)
Concord, N. H., Oct. 30.—Mrs. Eddy granted an audience to a limited number of newspaper men today. Among those present was a representative of the Scripps News Association. The famous lady was hedged about by a number of "safe guards." She said that this audience was granted wholly to set at rest the reports that her health was undermined, but she failed of her purpose as failing health was evident in her face and manner.

It is hardly true that she is suffering from an incurable cancer, but it is evident however, that her eighty-four years is weighing heavily upon her and that her bodily frame is succumbing to her advancing years. She has incurred the enmity of powerful members of her church by her despotic manner in recent years. Factional fights have resulted, caused by her refusal to designate her successor. Several factions, who are near the head of her church, are fighting for the mastery.

Her mind has reached the anfeebled condition where it is almost impossible for her to master the details which heretofore she has been able to deal with to her complete satisfaction and also that of the church.

THE INVESTIGATION

Those who sought to demonstrate that Mrs. Eddy still retained her old time vigor invited a number of newspaper men and others interested to attend a meeting where Mrs. Eddy would answer such questions as might properly be required of her. This interview lasted just fifty-five seconds and resulted in simply confirming the report that she is a mental and physical wreck.

Mrs. Eddy was accompanied to the room by Frye who was dressed in the livery of a footman. When she entered the room the clear young voice of Mrs. O'Brien questioned, "Are you in perfect health?" "I am," was the pitiful attempt at an answer as she surveyed the questioner with wonderment, as if she was trying to comprehend the meaning of the demonstration. "Have you a physician other than God?" asked Mrs. O'Brien, "Oh? What? Oh, yes I hear you. No I have no other physician than God. I am resting in His everlasting arms." Her answer was only half audible to those about her. Having completed her answer

she turned with a weary look to Frye who stood near ready to assist her to her carriage. Mr. O'Brien then rushed in to the room and begged, "Mrs. Eddy, won't you please tell us that you drive out every day?" She murmured something which the stenographer who was very near took down as yes. Thus the interview terminated. Mrs. Eddy was led to her carriage by Frye and a strong nurse.

The interview disproved to a certain extent the report that Mrs. Eddy could not walk nor talk, but that is all, as she is evidently on the verge of a complete physical breakdown.

BORN TO DINES

(Scripps News Association)
Milwaukee, Wis., Oct. 30.—By the birth of a male child to Mr. and Mrs. William Plankington today, the Passavant hospital of this city loses five million dollars. William Plankington Sr., who founded and established the Plankington hotel, left five million dollars at his death to the hospital with the proviso that should a male heir be born to William Jr., that heir should receive the endowment. If no such heir was born the hospital would secure the amount. For many years the Plankingtons have held the honor of conducting one of the most fashionable hotels in the middle west.

IGNORANT PRESIDENT

(Scripps News Association)
Chicago, Oct. 30.—President Felton of the Chicago and Alton, was criticized and scathingly denounced in the justice court this morning, in the suit brought by the Illinois Auditing Company, to recover alleged overcharge. "Felton said, 'I did not know anything about the tariffs of the road. I had heard that the shippers had tried to hold the road up.' The attorneys for the shippers accuse the road of holding up the shippers by illegal and extraordinary methods.

MAKE EASTERN TEETH WATER

Hood River apples may have the reputation, but Grande Ronde Valley apples certainly have the delicious quality that makes the lips smack. Following is what a paper from Menomonee Wisconsin has to say of our fruit:
An apple that weighs 21 ounces and measures 1 1/2 inches in circumference is not a common sight in Dunn county. But a specimen of that weight and size was left at the News office Thursday by

Miss Clara Masee. The apple was not a Dunn county product but was grown in the renowned region of La Grande, Ore. With several others nearly as large, it was sent by Herbert Masee, a former resident, now in the west. Three huge apples of the same Wolf River variety are on display in the Boston Drug store window.—Dunn County News, Menomonee Wisconsin.
