## DRAYMAN FRUSTRATES A ROBBER

Last evening about seven o'clock drayman Chas. Dunn, on the corner of Fir and Jefferson Ave. saw a man grab a watch which was being carried in a belt by a young lady and ran. Mr. Dunn immediately took after the thief and overtook him in the alley in the rear of the Foley House, recovered the watch and returned it to the owner, who thanked him courteously and proceeded on her way. Mr. Dunn warned the thief that if he saw him on the streets again he would turn him over to the authorities. Suffice it is to say he has not been seen since.

### CONSTRUCTING TURN TABLE

The work on the new round house progresses rapidly. By tonight the brick wall will be completed. One fire wall, that is, a sort of a partition that is intended to lessen possibilities of fire, is also finished and the other one nearly done. Window frames are all in place and timber is arriving on the ground and being sawed into desired shapes.

The turn table, the location of which caused a change in the direction of a water main, is partially built. Excavations have been going on for some and the outside cement foundation is now being built. Teams with scrapers are completing the excavations in the center. The contractors have been blessed with excellent weather and are jubilant over the headway they are making.

### CARRYALL PARTY LAST NIGHT

The Epworth League of the Methodist church enjoyed a very pleasant rallyho ride last evening. About twenty formed the party. The load drove around the valley and the noise which it created was taken as a forerunner of Halloween. The young people of the church will enjoy another ride tonight when they go to Island City where Rev. Jasper will preach in the Methodist church in the absence of Rev. Meredith.

### SKATING RINK A SUCCESS

The skating rink was an overwhelming success. With the La Grande band furnishing music, the doors opened and within half an hour the new Armory building was well filled with spectators and skaters. Ladies skates have not arrived yet and there were but a few ladies on the floor. However the gentlemen, were out in numbers and it was amusing to see the tumbles that some indulged. However as one man said, "I wouldn't go if I couldn't fall." The tumbles are what makes it interesting. The floor is in good condition and everything points to a winter of real sport. Some who appeared at the opening had never been on "skates" and the antics they performed were many. La Grande has a large list of expert skaters and when once accustomed to the floor, much amusement and exercise will be in store for them. The rink will certainly be a popular amusement.

### MUSCULAR RHEUMATISM

This simply means that there is pressure on nerves at or near the seat of suffering. Some bony part that is slightly out of adjustment may be causing the pressure; or it may be due to muscular contraction resulting from cold or other cause. The trouble is readily relieved by Osteopathy. Quick cures are the rule and complete freedom from suffering after one or a very few treatments is common.

### NEURALGIA

Necessarily this means nerve suffering. It is in the primary line of Osteopathy work; and practitioners of the new science relieve sufferers constantly and with great facility.
