IN WISCONSIN
Milwaukee Wis., Nov. 5.—The Republican claim eighty to a hundred thousand lead for Governor Davidson, the present occupant of the chair. The Democrats claim a lead of fifteen. Congressman Babcock's re-election is uncertain. A light vote is indicated.

TURBULANT NEW YORK

Betting today is four to one on the Republican candidate for governor. Woodruff says that the Republicans will place Chas. Hughes on the governor's chair by a plurality of over two hundred thousand.

POLICEMEN TRANSFERRED
New York Nov. 5.—Hansen says that Hearst will win by 200,000. General Bingham tonight will transfer 7,000 policemen. He thinks that by this action it will be certain to keep patrolmen from interfering in the election, as each man will be in a strange place and no one knows where he will be stationed tomorrow.

The straw votes continue today, all of which are unfavorable to Hearst. The independent candidate's chances in Brooklyn are steadily decreasing.

COLORADO REPUBLICAN
Denver Nov. 5.—Impartial opinions today concede that the Republicans will carry the state of Colorado by at least ten thousand.

PRESIDENT TO KEEP INFORMED
Washington Nov. 5.—President Roosevelt will receive returns at the White House, tomorrow night, after returning from voting at Oyster Bay.

IN CALIFORNIA
San Francisco Nov. 5.—With the exceptions of a few eleventh hour speeches the campaign in California closed today and the last day is being devoted to the formulation of plans to bring out voters. Clear weather has been predicted for tomorrow and all parties expect to bring out the full vote. Republican Chairman Stone, in a statement issued today, claimed victory for the entire Republican ticket be a 30,000 lead. The Democrats claim Bell's election by 80,000. Langdon's manager makes no predictions as to the size of the vote but says that indications surely point to the election of Gillitt.

Bell was to have delivered his final speech here at noon but his throat trouble would not allow it. He has left for his home but stated he was confident of his election.

IN MASSACHUSETTS
Boston, Nov. 5.—Tom Lawson's promised boom for Moran came today in the shape of half page ad in all newspapers of the city. The vein of the ads is a general denouncement of the money, owners and calls upon the common people to demand their rights.

UP IN WASHINGTON STATE
Seattle, Nov. 5.—Chairman Debruler of the Republican state committee said today "The campaign has been apathetic because of the lack of effective opposition. Because of this apathy there will be a reduction in the normal vote." We expect to increase our representation in both houses."

The Republicans will elect sixty-one out of seventy-two of the legislature. Chairman Lockhart, of the Democrats, claims a majority of two thousand and a slight control of the legislature.

HER LAST VOYAGE
(Scripps News Association)
New York Nov. 5.—The old full rigged ship C. F. Sargent which arrived here a few days ago in a battered condition having experienced a full Cape Horn storm on her voyage from Portland Oregon has seen the last of her ocean going trips. She is turned into a coal Hulk to-day. The stout old vessel is at least sixty years old and is supposed to be the last of the old American full-rigged ships.

Her hull is still as sound as the day she left the stocks, but owing to her bulk and slow speed cannot compete with the modern rigged craft.

WILL MAKE TEST CASE
(Scripps News Association)
San Francisco, Nov. 5.—The answer to the order of Judge Wolberton of the United States circuit court requiring the board of education of this city to show cause why an injunction compelling the re-installment of I Yasuhara, a Japanese pupil recently excluded from the Pacific Heights Grammar School, was filed this afternoon. The order was issued following an application for an injunction presented to Judge Wolberton with the intention of making this a test case. The application is made on the grounds that the present resolution of the Board of Education excluding Japanese pupils from the city schools is a violation of the treaty now existing between the United States and the Empire of Japan. The legal points in the case will be argued tomorrow. Ambassador Aoki, of Japan, has made repeated calls to the State Department at Washington and has discussed the question in all its bearings with Secretary Root.

VIOLATION OF TREATY

RICH RETURNS FROM AURELIA CONCENTRATES

J. A. Thronson, this morning received the assay from the concentrates secured by the test run of the Aurelia mill, and to say that they were satisfactory is stating the facts in a mild way. The assay shows a total value of \$225.56. In order to properly appreciate this figure one must remember that the ore used to secure this sample was what was considered the very poorest ore to be found in the mine. This class of ore was used because the mill was new and it was feared that it would not save the values until it was re-adjusted. In this they were mistaken for the assay of the tailings showed that only \$2.03 in values passed over the plates and tables. It is thot by the mine officials that when the real work of milling begins, it will be found that the average will reach near the three hundred dollar mark.

The officials of the Aurelia mines are to be congratulated upon the great amount of successful work accomplished the past summer. Aside from doing a considerable amount of development work, a six mile

road has been constructed, a ten ton quartz mill installed, a mill building fifty six feet by fourteen feet erected and over twelve hundred feet of ditch constructed. A thirty light electric plant has also been installed. In other words, the mine has been properly equipped and placed in condition for operation. This has been done within a period of less than a year and with an expense of less than seven thousand dollars. This amount also includes all the tools, teams and wagons which are still on hand and in good condition.

This test given the mill proved beyond all doubt that the mill is adapted to the needs of the ore and that there will be no question as to saving the concentrates. The samples shown at the OBSERVER office were of the finest quality, and Mr. Thronson states that in milling no difficulty from slimes or slimes were experienced. The Aurelia by this time next year have made her owners rich and the upper Grande Ronde river mining district famous.

Judge Pinckney ordered the Sheriff to take charge of Leopold and keep him from the police until the trial.
