AMUSEMENT

THE BEST OF "DORA THORNE" VERSIONS.

That idyllic picture of the rural English home life, together with its flight to the most aristocratic circles of English society, "Dora Thorne" is proving one of the most interesting and successful new plays of the present season. The book of "Dora Thorne" had a wonderful

vogue some years ago, and still has a steady circulation as a novel of its class it has seldom surpassed; a beautiful story of love written around a moral which is as powerful as it is true. "The consequence of sin seldom ends with its originators," is an old adage, but one which is ever new, coming up before us as a truth day by day, and one which shall do so as long as the world shall last. This theme is brought out in the play of "Dora Thorne," as in the book with a wonderfully original setting. Tears and laughter follow in quick succession; sincere heart interest is manifested at every turn, interwoven with the most powerful of all themes—"love." It is love which makes the world go around. "Dora Thorne" will be seen Wednesday Nov. 14.

"Dorris is an orator, every inch of him."—Des Moines Iowa Daily. Hear him Friday evening. "His sincerity in his work is at once apparent. Mr. Dorris is not an orator simply because he has an easy and engaging manner and because his well rounded sentences come with such smoothness, but because he expresses ideas in such a manner as to carry conviction to his hearers."—Huntington, Ind. Democrat. Hear him in the Central church, Nov. 16.

MALARIA AN INSIDIOUS FOE TO HEALTH

Malaria is an atmospheric poison which we unconsciously breathe into our lungs through the impure air arising from low, marshy places, stagnant ponds, cesspools, sewer pipes, improperly ventilated houses, decaying vegetable matter, etc. Day after day these germs and poisons are taken into the lungs, and as the blood passes through them it becomes infected with the poison and in its circulation distributes the microbes of disease to all parts of the body. Malaria is a very insidious disease; it gives no warning of its coming until the circulation is filled with the poison and this foe to health has the system at its mercy. The blood becomes polluted, thin and weak and its slow, irregular circulation fails to properly nourish and strengthen the body. Then the entire system is attacked, and if the germs and poisons of Malaria are allowed to remain the strongest constitution will break down. No one can feel well when the system is in a malarial condition; the vitality is weak, the appetite poor, digestion deranged, the complexion grows sallow and the entire body feels the effects of the poison. Malaria must be removed from the system through the circulation and the only medicine that can accomplish this is S. S. S. It not only cleanses the blood of all unhealthy morbid matter, but destroys the germs, cures Malaria and restores this vital fluid to a strong, healthy condition. S. S. S. is made of roots, herbs and barks combining purifying and tonic properties which keep the blood free of all poisons and the system in perfect condition. While destroying the germs of Malaria and building up the weak polluted blood S. S. S. gives tone and vigor to the entire system. Book on the blood and any medical advice without charge.
