During normal years many are out of employment at this season, but such is not the case this year. There is not an idle man in the city.

La Grande will never have good streets until we have a sewerage system and when that will be, is merely a matter of conjecture.

Negotiations are on foot for the organization of trust of glue manufacturers. Here is a combination that ought to stick.

The farmers of the valley are jubilant over the warm rain that has been general all over the county. The ground was in the proper condition to absorb it all. The streams have raised very little.

There is a limit to everything, even the Standard Oil Company, which has been ruling with an iron hand, has found that it has to respect the law. "God's mill grinds slow, but sure."

A charter has been secured to build a 10-mile railway tunnel under Belle Isle Straits to connect Newfoundland with Canada. It is said that the franchise allows twenty years for construction, and the Newfoundland government contributes \$75,000 annually.

The acreage of wheat in New South Wales, Australia, is stated by the official statistician at Sydney to be 2,296,000 acres, an increase of 45,000 over last year, and therefore a record for the State. The wheat harvest is estimated at 26,000,000 bushels, though with favorable conditions this may be greatly exceeded.

The roads will be, if not already, in such a condition that it will be impossible for teams to haul wood out of the mountains, unless they freeze up, which does not often occur this early in the season and unless the fuel conditions are relieved by receipts of coal, there will be a famine here unprecedented, and that practically within sight of the timber. A sudden change in the weather might cause a raid upon the company coal in the railroad yards. Think of it, not a half a dozen cars of coal have been received here for months. The statement that empty cars cannot be secured, will not be tolerated for ever.

SHIPMENTS TO LIVERPOOL

Recent advices from Liverpool state that in the week ending October 13, 25,000 barrels of apples were landed at that port from North America. In the busy season consignments range from 60,000 to 109,000 barrels a week, and such large shipments are expected to arrive in November. One of the chief authorities of that port on the apple trade states that they have received information there that the apple crop in Canada is only a moderate one, while the crops in New England, Nova Scotia, and California are on about an average, and in the district along the Hudson river the crop will be practically nil. But the crops in the Western states are very large. The Canadian government has taken steps to improve the grading and packing of Canadian apples, the barrels being examined by inspectors before shipment, and consequently the fruit is arriving much better grades and packed than was previously the case. It is hoped that Americans will pursue a similar course, and thus strengthen themselves in the British market.

Those who have investigated are of the opinion that not less than 400 car loads of apples will be shipped from Union county this season. This means in the neighborhood of \$150,000 to the growers.

HAD A CLOSE CALL

"A dangerous surgical operation, involving the removal of a malignant ulcer as large as my hand, from my daughter's hip, was prevented by the application of Bucklen's Arnica Salve," says A. C. LITTLE, of Milletts W. Va. "Persistent use of the Salve completely cured it." 25c. Cures Cuts, Burns and Injuries. at Newlin Drug Co., druggists.

Now is the time to have your old umbrella recovered. Smith will do the work.
