Pendleton has raised its saloon licenses from \$550 to \$900 per annum.

An Englishman says the American face is joyless. Perhaps he has been making a study of the faces of the American girls who have married Englishmen.

Alaska not only furnishes Uncle Sam with \$18,000,000 worth of new gold annually but generously offers to all his coal bins. And we bot the whole country for \$7,500,000.

The fact that a band of juvenile shoplifters was organized in Dayton ought to set parents to thinking, says the Dayton Dispatch. It ought to bring forcibly to their minds that idleness begets crime. When a boy is permitted to roam about the streets of a city or town at will, it may be set down as an axiom that he will develop into a criminal. Teach the boy to work and keep him off the street. Honest toil begets self respect and contentment, and shields the boy from evil thots and associates.

Those who own silver prospects should take heart. Director Roberts of the United States mints says: "I believe hundreds of silver mines throuot the west that have been shut down for more than ten years because of the fall in the price, will be opened within a year, because the price of the metal will make it worth while. Let me state this is no speculative or boom market. The prices of 71 today will be better within the next month and it will steadily and naturally advance until the high mark, possibly near 80, will be touched."

INCREASING BRITISH SAVINGS

The rapid growth of the British savings bank in the past fifteen years is shown by the following report from Consul Albert Halstead, of Birmingham, which shows how the Government Post-Office Banks Encourage Thrift.

Depositors have doubled in number, from under 5,000,000 to 10,000,000 and the ratio of depositors to population has increased from 1 in 7 to 1 in 4.35. Deposits have increased \$269,140,861 to \$740,248,181.50, and the number of post-office banks from 10,000 to 15,000. The average of each account is now £15 5s 4d (\$24.39). The scope of the bank has been enlarged, so that £50 (\$245.52) can be deposited in any one year, and the total deposits of any one individual may aggregate £150 (\$925.30).

Fifteen years ago an individual could deposit but £30 (\$47.99), his total on deposit could not exceed £30 (\$729.97). Another improvement is to calculate the total deposited in one year as the amount alone deposited less the withdrawals in that period, instead of the amount alone deposited. In 1890 money could only be drawn upon notice being given. Now small sums up to £1 (\$4.88) can be withdrawn on demand at the nearest post-office, and larger sums, if desired, by the use of the telegraph, at the expense of the depositor.

An eight years old boy, speaking four languages fluently and with a liberal knowledge of mathematics and physics, has just been admitted to the high school at Brooklyn, Mass. He is the son of Dr. Boris Sidis a prominent German physician of that city, and his remarkable mental development has naturally attracted a great deal of attention, but he is said to have the bent shoulder of an old man and to be obliged to wear double lens eyeglasses. Would'nt it be a physical kindness to such a prodigy to interrupt his brain work and make him become a boy among boys? questions an exchange.
