**AMUSEMENT**

TUESDAY, NOVEMBER 27

Mr. R. G. Craerin has purchased the sole rights for the United States and Canada, to Wilson Barret's impressive and highly pictorial drama, "The Sign of the Cross." It is the only production of the play that will be seen in this country this season, and will be presented in sumptuous style. The company is of uncommon strength in its personnel, many of the leading players of William Greet's famous English company having been secured for their original roles. "The Sign of the Cross" will be an attraction of absorbing interest to church-goers and theatre-goers alike. Steward's opera house tonight.

**MAUD FEALY**

Society circles in this city are much interested in the forthcoming appearance of Maud Fealy, America's youngest dramatic star and former leading woman for the late Sir Henry Irving, who is to be seen at the Steward's opera House in Martha Morton's latest comedy, "The Illusion of Beatrice." In this superb play, which gives Maude Fealy every opportunity for the display of her girlish personality, the dramatist has evolved a story of remarkable heart interest.

It deals with the career of a foundling adopted by a wealthy American and the child's belief is that she is a princess of the royal blood. The good-natured people who have implanted this idea in the child's brain, little know the trouble it will cause her in after life. The cleverly constructed plot of "The Illusion of Beatrice" commences at the point, when the heroine returns from school to take her place in society and in the household of her adopted father. In this play Miss Fealy has won the greatest success of her career, even greater than the successes she achieved while with Sir Henry Irving.

**KICKED BY A COW**

Samanthy Green, maid-of-all-work for Mrs. Aepsibah Putnam, met with an accident the other night; it was very painful to her but immensely amusing to the crowd that saw it happen. It was just before the "husking-bee" at Zeke Pettengill's and Samanthy had called at Zeke's place to borrow some milk. Farmer Pettengill told her to go into the barn and help herself from the brindle cow but to be careful and not go near the red one. It was quite dark in the barn and it is supposed that Samanthy must have tried to milk the wrong cow. At least spectators were soon treated to the sight of a broken milking stool, a dented pail and a shawl flying from the barn door proceeded by the sound of vigorous kicking and a crash of tin, all followed by the appearance of Samanthy herself coming faster and making more noise than the kicking cow, dented pail and broken milk stool combined.

The crowd pited Samanthy but they could not help laughing; it was more than laughing; it was roaring. When she had gathered herself together sufficiently for an explanation Samanthy said she did not know what she had kicked for.

Audiences have laughed, cheered and roared over this incident in the third act of "Quincy Adams Sawyer." For the benefit of those who never saw Samanthy kicked out of the barn by the cow she will repeat the performance at Steward's opera house Friday Nov. 30.

**CATARRH DUE TO OBSTRUCTION**

Catarrh is an inflammatory disease of the mucous membrane, whether it occurs in the nostril, in the stomach, or elsewhere. And, like other inflammatory disease, it is simply the result of there being too much blood in the afflicted tissues. This results either from too great a supply, thru improperly controlled arteries, or thru the failure of the veins to carry the blood away after it has been brot to the part by the arteries.

Obstruction is the common cause. It may be that the nerves controlling the blood vessels are suffering from the pressure of misadjusted vertebrae; it may be that the vessels themselves are interfered with by hardened or contracted muscles or ligaments; the nature of the obstruction, and its location, vary with the case.

But the skilled Osteopath can usually find it, and readjustment very often brings a complete cure, even when the trouble has become chronic. Frequently relief is quick, althru in many cases numerous treatments are necessary. But Osteopathy's success in banishing the disease is general very gratifying. It is the safe and rational treatment.
