LA GRANDE SCHOOL OF MUSIC

PROF. DAY, PRINCIPAL
MRS. DAY, ASSISTANT.

This is one of the best musical institutions in the state, and that people in this city and valley are beginning to discover the advantage of this school. The system is the latest and most practical, and includes all the latest discoveries in the art of teaching music. The school is divided into two departments; No. 1 is for beginners from 5 years or more and are taught the first three grades. Pupils come one hour each day. This is no kindergarten system but far superior. In No. 2 the grades are from 5 to 15. Here they graduate. Pupils take one or two lessons a week as they desire. No scholars will be permitted to remain in this school who do not study.

CODLING MOTH TANGLEFOOT

To the Editor:—
Dear Sir—I have made a discovery this summer that will be quite valuable to the fruit growers and orchardists of Grande Round valley, if you would be so kind as to give it space in your paper, so all can be ready by next summer to exterminate the codling moth in good earnest. It is simple and costs near nothing and very little labor, and is a sure and dead shot to the moth.

Take a tin can, 10x12 or 12x16, eight or ten inches deep, or a coal oil can cut off will answer, paint the bottom of it with some black paint, and when dry fill up to about 4 inches with clear water and put it out under an apple tree and you have a trap that will catch every codling moth that will come near it.

The idea is this: In painting the bottom of the can you form something like a mirror and they see the leaves and limbs of the tree and drop in it and never get out. I caught hundreds and hundreds of them, genuine codling moths. Catch the mother and there will be no young. With this practice, in five years there will be no more codling moths.
Yours,
L. H. RUMELHART.

CHINESE PECULIARITIES

The Chinaman shakes his own hand, instead of yours.

He keeps out of step when walking with you.

He puts his hat on in salutation.

He whitens his boots, instead of blackening them.

He rides with his heels in his stirrups instead of his toes.

His compass points south.

His women folks are often seen in trousers, accompanied by men in gowns. Often he throws away the fruit of the melon and eats the seeds.

He laughs on receiving bad news (This is to deceive evil spirits.)

His left hand is the place of honor.

He says west-north, instead of north-west, and sixth-four, instead of four-sixths.

His favorite present to his parents is a coffin.

He faces the bow when rowing a boat.

His mourning color is white.

The children of a Chinese school study out loud.

Sold for this purpose and only for this, the Company offers the above treasury stock. Buy now if you desire a holding with us. The property is well enough known to need no mention here. But will say that our mill run on the ores was a success, as was show by the assays return. Tailings taken every hour showed \$2.00 per ton, and the concentrates assayed \$223.55. This is extra for a start up.
