D. SCOTT.

## THE PRESIDENT'S MESSAGE

Continued from page 1

fitted to do well if they do go into it. This is a tendency which should be strenuously combated."

### PHILIPPINE TARIFF

I most earnestly hope that the bill to provide a lower tariff for or else free trade in Philippine products will become a law. No harm will come to any American industry; and while there will be some small but real material benefit to the Philipinos, the main benefit will come by the showing made as to our purpose to do all in our power for their welfare. \* \* \* This nation owes no more imperative duty to itself and mankind than the duty of managing the affairs of all the islands under the American flag—the Philippines, Porto Rico, and Hawaii—so as to make it evident that it is in every way to their advantage that the flag should fly over them.

### MARRIAGE AND DIVORCE

I am well aware of how difficult it is to pass a constitutional amendment. Nevertheless in my judgement the whole question of marriage and divorce should be relegated to the authority of the National Congress. At present the wide differences in the laws of the different states on this subject result in scandals and abuses; and surely there is nothing so vitally essential to the welfare of the nation, nothing around which the nation should so bend itself to throw every safeguard, as the home life of the average citizen. The change would be good from every standpoint.

### IRRIGATION AND FOREST PRESERVATION

Much is now being done for the States of the Rocky Mountains and Great Plains thru the development of the national policy of irrigation and forest preservation; no Government policy for the betterment of our internal conditions has been more fruitful of good than this. The forests of the White Mountains and Southern Appalachian regions should also be preserved; and they cannot be unless the people of the States in which they lie, thru their representatives in the Congress secure vigorous action by the National Government.

### AMERICAN SHIPPING

Let me once again call attention of the Congress to two subjects concerning which I have frequently before communicated with them. One is the question of developing American shipping. I trust that a law embodying in substance the views, or a major part of the views, expressed in the report on this subject laid before the House at its last session will be past. I am well aware that in former years objectionable measures have been proposed in reference to the encouragement of American shipping; but it seems to me the proposed measure is as nearly unobjectionable as any can be.

### REGARDING CUBA

"The United States wishes nothing of Cuba except that it shall prosper morally and materially, and wishes nothing of the Cubans save that they shall be able to preserve order among themselves and therefore to preserve their independence. If the elections become a farce, and if the insurrectionary habit becomes confirmed in the Island, it is absolutely out of the question that the Island should continue independent; and the United States, which has assumed the sponsorship before the civilized world for Cuba's career as a nation, would again have to intervene and to see that the government was managed in such orderly fashion as to secure the safety of life and property."

### PANAMA CANAL LATER

I have just returned from a trip to Panama and shall report to you at length later on the whole subject of the Panama Canal.

### CURRENCY REFORM

The national bank act has ably served a great purpose in aiding the enormous business development of the country; and within ten years there has been an increase in circulation per capita from \$21.41 to \$55.08. For several years evidence has been accumulating that additional legislation is needed. The recurrence of each crop season emphasizes the defects of the present laws. There must soon be a revision of them, because to leave them as they are means to incur liability of business disaster. Since your body adjourned there has been a fluctuation in the interest on all money from 2 per cent. to 50 per cent; and the fluctuation was even greater during the preceding six months.

### ARMY AND NAVY

The United States Navy is the surest guarantor of peace which this country possesses. It is earnestly to be wished that we would profit by the teachings of history in this matter. A strong and wise people will study its own failures no less than its triumphs, for there is wisdom to be learned from the study of both, of the mistakes as well as of the success.

I do not ask that we continue to increase our Navy. I ask merely that it be maintained at its present strength; and this can be done only if we replace the obsolete and outworn ships by new and good ones, the equal of any afloat in any navy.

One of the splendid results of physical beautifying is its tendency to create an ambition to be beautiful in every way. When a woman gets a good start by taking Hollister's Rocky Mountain Tea she is all right. Tea or Tablets, 52 cents Newlin Drug Co.

### DIED SUDDENLY OF HEART DISEASE

How frequently does a head line similar to the above greet us in the newspapers. The rush, push and strenuousness of the American people has a strong tendency to lead up to valvular and other affections of the heart, attended by irregular action, palpitation, dizziness, smothered sensations and other distressing symptoms.

Three of the prominent ingredients of which Dr. Pierce's Golden Medical Discovery is made are recommended by some of the leading writers on *Medical Botany* for the cure of just such cases. Golden Seal root, for instance, is said by the UNITED STATES DISPENSATORY, a standard authority, "to impart tone and increased power to the heart's action." Numerous other leading authorities recognize Golden Seal as an unsurpassed tonic for the muscular system in general, and as the heart is almost wholly composed of muscular tissue, it naturally follows that it must be greatly strengthened by this superb, general tonic. It probably is the most important ingredient of Golden Medical Discovery, so far as its marvelous cures of valvular and other affections of the heart are concerned. It is Stone root of *Coffassonia* Galt, Prof. Wm. Paine, author of Paine's Epitomy of Medicine, says of it: "I, not long since, had a patient who was so much oppressed with valvular disease of the heart that his friends were obliged to carry him upstairs. It, however, gradually recovered under the influence of Colman's medicinal principle extracted from Stone root, and is now attending to his business. Heretofore physicians knew of no remedy for the removal of so distressing and so dangerous a malady. With them it was all goose-grip; and it fearfully warned the afflicted that death was near at hand. Colman's unsurpassably awards relief in such cases, and in most instances effects a cure."

Stone root is also recommended by Drs. Hale and Ellingwood, of Chicago, for valvular and other diseases of the heart. The latter says: "It is a heart tonic of direct and permanent influence." "Golden Medical Discovery" not only cures serious heart affections, but is a most efficient general tonic and invigorator, strengthening the stomach, invigorating the liver, regulating the bowels and curing catarrhal affections in all parts of the system. Dr. Pierce's Pellets cure Constipation.
