## NOT SMALL POX

A misstatement of the facts often carries faster and farther than a correction but still we think the true story of the alleged small pox scare at our house should be told.

I was taking steam baths at Hot Lake for kidney trouble and no doubt the skin eruption was the result of the baths drawing out the disease to the surface.

The management at Hot Lake was fearful, lest the skin eruption might develop into small pox so I came home to La Grande.

Two La Grande physicians diagnosed the case and both decided the skin eruption was not small pox, but as a measure of precaution it was deemed best to put up the yellow flags to keep the children in and allow time enough to elapse so it could be determined if any other member of my family would become afflicted with the same or any other skin eruption.

It appearing that no small pox or any other contagious disease was or had been at our house the quarantine was raised and no harm done except that our friends have been very much worried about the report of small pox at our house.

J. B. STODDARD.

## DISEASES TREATED BY OSTEOPATHY

What diseases then in the Osteopathy justified in treating, confident that in almost every case he can do as much as, or more, than any other? Negatively, it may be said that if there is a part of the body diseased without cause, or that is not dependent upon the free circulation of the blood and lymph for its nutrition, or that is not maintained in structure and in function by its nerve supply, that part is not amenable to Osteopathic treatment.

Many think, honestly, that Osteopathy is good for chronic diseases, but that it cannot reach acute cases. By what principles of common sense or by what rules of logic one can arrive at that conclusion is hard to understand. Everyone knows that the sooner a displaced or a fractured bone is fixed, the better. Every one knows that the sooner an antidote is given for a poison, or the sooner it is removed, the better. Every Osteopath knows that it is easier to overcome an acute attack of grip and prevent bad after effects than it is to remove the complications so often found after the drug treatment of this terrible malady. The same is true of other acute diseases as well as grip. The little fire just starting is more easily extinguished than the conflagration resulting from it.

It is hard to get people to understand these simple facts because the reverse has been impressed upon them from infancy. They honestly think that they must "take something" for every ailment.—History of Osteopathy.

## HOW TO AVOID PNEUMONIA

We have never heard of a single instance of a cold resulting in pneumonia or other lung trouble when Foley's Honey and Tar has been taken. It not only stops the cough but heals and strengthens the lungs. Ask for Foley's Honey and Tar and refuse any substitute offered. Dr. C. J. Bishop of Agnew, Mich., writes: "I have used Foley's Honey and Tar in three very severe cases of pneumonia with good results in every case."
