LA GRANDE, UNION COUNTY, OREGON, MONDAY, JANUARY 14 1907

NUMBER 36

ARCH-BISHOP MONTGOMERY INTERRED

(Scripps News Association)
San Francisco, Jan. 14.—The remains of Archbishop Montgomery were interred this afternoon. The services at the church and the funeral pageant were the most impressive of any in the history of the west. Fully eight thousand members of the Catholic societies formed a part of the pageant. Services at the grave side were fully as impressive as those at the church. Archbishop Riordan threw the first clod of earth on the coffin when it had been lowered in the grave.

MILITARY CAPTAIN COURT-MARTIALED

(Scripps News Association)
Brooklyn, Jan. 14.—The charges against Captain Louis Gendel of the First Battery N. G. N. Y., of having extorted money from armory employees were the subject of a court-martial investigation at the First Battery Armory here today. Captain Gendel has refused the services of a lawyer and has announced that he will require no witnesses. The court is composed as follows:
Brigadier Gen. James H. Lloyd, Commander of the Third Brigade, Col. George H. Fox of the Seventy-fourth and Col. Chas. Hitchcock of the First. The judge advocate is Major George Lawyer, of General Lloyd's staff, an expert in conducting the prosecution in military courts.

TO STUDY THE GREAT ECLIPSE

(Scripps News Association)
Tashkent, Asiatic, Russia, Jan. 14.—The French, American, Russian and German expeditions have all preparations made here to view the partial eclipse of the sun this afternoon. In addition to making the usual observations, the expeditions will study the condition of the upper air by means of balloons and automatic instruments.

ELECTRICAL SHOW IN CHICAGO

(Scripps News Association)
Chicago, Ill., Jan. 14.—The electrical show which opened in the Coliseum here today is a great success. There is on view an electrical lamp, of the incandescent type, which will burn by talking to it, or by allowing the current to pass through a human body without inconvenience or danger, the lamp burning undiminished all the time. Through a highly sensitive transmitter the human voice is carried to the carbon of an arc lamp, where it is distinctly reproduced. More than 160 leading electric manufacturers in the country have exhibits.

DISCUSSING LABOR PROBLEMS

(Scripps News Association)
Nashville, Tenn., Jan. 14.—Governor John I. Cox was the principal speaker at the annual convention of the Nashville Trades and Labor Council today, he pointed out that during the year there were 882 strikes in the country, involving 91,550 men, of whom 65,812 were benefited and 11,183 were not helped. The total cost of the strikes was \$5,952,895. The International Typographical Union was advanced \$52,619 in its fight for an eight hour day. The convention unanimously decided that the union label of the printers be inserted on the eight hour flag of trade unionism.

REMARKABLE POULTRY EXHIBITION

(Scripps News Association)
Nashville, Tenn., Jan. 14.—The Tennessee State Poultry Breeders Ass'n show which opened this morning has beaten all records in the South as far as the number of exhibits is concerned. Turkeys, ducks, geese, pea fowls and water fowls from all sections of the southern and middle states to the number of 5350 are on view. The attendance is very large, the prizes are valuable and the best poultry in the country can be seen.

BISHOP MOORE
Who will deliver his lecture in the Methodist Church here this evening, under the auspices of the Epworth League

RECEPTION TO BISHOP

Many took advantage of the opportunity to personally meet Bishop Moore this afternoon, by attending the public reception given at the J. W. Seiber home.

S. P. WRECK AT OGDEN

(Scripps News Association)
Ogden, January 14.—Three mail cars, an engine, two Pullmans and a diner were tumbled into a ditch at Gartney this morning. The cars which were demolished were a part of the Southern Pacific Fast Mail west bound. The engine is still under the engine dead. Scores are seriously injured. The accident is due to defective rails.

B. & O. WRECK

(Scripps News Association)
Pittsburg, Jan. 14.—There was another wreck on the Baltimore & Ohio railroad this morning at Dalven, when the Chicago Express collided with a switch engine. A dense fog covered the town and yards and Engineer Meyers was unaware of the approach of the express until the collision came. He was instantly killed. His fireman was fatally injured.

HEBREWS IN CONFERENCE

(Scripps News Association)
Atlanta, Ga., Jan. 14.—The Union of American Hebrews congregations commanded a four day session here today. The attendance is fifty per cent larger than at any previous meeting no less than 700 delegates from all parts of the country being present. Questions dealing with immigration of Hebrews to the south and the extension of charitable institutions will be fully discussed.

TRANSMITS EVIDENCE TO SENATE

(Scripps News Association)
Washington, Jan. 14.—President Roosevelt this afternoon transmitted to the senate a special message, containing the report of Major Blockson and Assistant Attorney General Purdy on the Brownsville colored troop affair, also the shell clips and bullets gathered on the scene. The message gives the names of the witnesses who heard the voices of the negro soldiers on the night of the raid and who saw them climb over the garrison fence and start the shooting. It gives the names of fourteen witnesses who actually saw the shooting. The ammunition used could not have been fired by any other rifles than the ones carried by the soldiers. The President says it is impossible that the officers and the rest of the soldiers should not know what had happened. One witness says that at least twenty-five soldiers participated in the raid. In the message the President revokes the order barring the dismissed soldiers from civil employment.

OREGON LEGISLATURE

The Oregon Legislature organized today; President of the Senate, Haynes of Washington county; Speaker of the House, Davis of Marion county.

DR. MOORE HONORED

Portland, Jan. 12.—At the fifth annual convention of the Osteopaths which was in session here today, Dr. F. E. Moore, of La Grande, was elected vice president. He held the executive seat three years ago.

A bill was framed for presentation to the State Legislature by which it is hoped to secure a State Board of Examiners for osteopaths whereby they may be licensed for practice the same as doctors of medicine are. In the bill osteopathy is defined as "that science or system of medicine which treats diseases of the human body by manual therapeutics for the stimulation of the remedial and resisting forces within the body itself, for the correction of misplaced tissue and the removal of obstructions or interferences with the fluids of the body, all without the internal administration of drugs or medicines."

Oregon is one of the eighteen states in the Union that is without laws regulating the regular licensing of the osteopaths and naturally the members of the association are anxious to see the needed legislation.

Mrs. Dr. Moore, of La Grande, was chosen as one of the program committees for the ensuing year.

SNAKE RIVER IS CLOSED

Lewiston, Jan. 14.—Navigation on the Snake river between here and Riparia has been suspended, owing to the great flow of ice, which is a most unusual condition of affairs. The steamer Lewiston did not make her return trip and the steamer Spokane is still tied up at the dock. Both boats are owned and operated by the O. R. & N.

VALUABLE DOG POISONED

Last night a valuable dog owned by Mrs. Ida M. Greenwood, was poisoned and died after suffering terrible agony. Whether or not some one has started the inhuman act of poisoning canines is of course not yet asserted itself, but should such be the case it would be well for owners of valuable dogs to keep close watch of them. Even a cur deserves a better death than poisoning, but when it comes to maltreating valuable house pets in so cruel a manner, something should be done to apprehend the perpetrators.

LARGE CONTRACT

The Washington Nursery company has just closed a contract with the Arcadia Irrigation association of Spokane for the sale of 1,000,000 apples trees. This is believed to be the largest single sale of apples trees ever consummated by any nursery.

CANADA'S PROSPERITY

(Scripps News Association)
Winnipeg, Jan. 14.—Figures published today indicating the commercial prosperity of western Canada show that the grain crop of the three provinces totaled 201,020,148 bushels, and that up to date 55,729,100 bushels of wheat have been marketed. There are 1,200 interior elevators, and yet these are insufficient to handle the grain crop with the present car supply of the railways.

The cattle industry also is a very important factor in the country's wealth, \$4,029,639 net having been paid to ranchers alone last year, and prices ruling fairly high, an average of over \$47 a head for export steers being paid. Some 150,000 head of cattle were received at the Winnipeg stock yards, and 86,000 were carried to the seaboard over the Canadian Pacific, an increase of 27,000, compared with the previous year.

The supply of hogs was altogether inadequate to meet the demands of the market, and an average price of \$7.11 per hundred weight prevailed. The supply of sheep was much below the requirement.

OREGON IS IN GRIP OF COLD SNAP

(Scripps News Association)
Portland, Ore., Jan. 14.—The entire Northwest is experiencing the coldest weather in many years. The fuel famine throughout the country adds to the suffering. The Columbia river is frozen over at Vancouver and all navigation on the upper river is blocked. The Willamette is filled with floating ice.

FINE SHOW OF SHETLANDS

(Scripps News Association)
Cleveland, Ohio, Jan. 14.—The Cleveland Fanciers Club held their second annual show of Shetland ponies in the Armory here today. Ponies from the smallest horses in the world to the ordinary pony are shown and specimens from the beautiful herds of H. A. Everett, of Willoughby, are being paraded. The attendance of sportsmen and persons interested in horse breeding is very large. The show is a great success.

THEY RAN AWAY

The Electric Light Company's team, which transports the material wagon about the city and valley, was this morning hitched in the rear of the company office, but they didn't remain their long. A slight noise frightened the team, and in a moment they were sailing out thru the alley between the light office and the bank building. The sudden defection on reaching Depot street was too much for the wagon and over it went. The box was broken, a wheel smashed and the team thrown. When the team was cut from under the debris it was found that neither of the horses were injured. But there were bits of wire, globes, hammers, screws and other lighting paraphernalia scattered for a block and the line crew spent most of the forenoon picking up the lost articles.

COUNTY DIVISION FIGHT ON

The usual Union county fight will again bob up in the Legislature this year. For a number of years there has been a conflict between Union and La Grande for the retention of the county seat. This was finally fought out at the last general election, when La Grande retained the county capital by about 74 per cent of the vote that was cast. Now the people of Union propose to have a new county created to be known as Hot Lake county. The territory proposed to be included in the new county consists of about one-fifth of the area of Union county and would mean the probable selection of Union as the county seat of the new county.

This legislation is considered by many of the new Union county people to be merely the sequel of the county seat fight. PROGRAMME IS NOT PLEASING.

The creation of the new county would result in cutting up the pretty little valley a programme that is not viewed with favor by many of the people of the county.—Oregonian

GREAT CORN SHOW IN INDIANA

(Scripps News Association)
Vincennes, Ind., Jan. 14.—In the Purdue University today there was a very interesting exhibition of corn from all parts of the state. It was held under the auspices of the Indian Corn Growers Association and was attended by grain men from all southern states. The show was held in connection with the corn school and is of great educational value. The exhibits are divided into five classes and valuable premiums will be offered in each section.
