# W. J. BRYAN **ARRIVES IN** SPOKANE

Spokane, Jan 15-Without the knowledge of any of the local democratic leaders or of the committe which had arranged to receive him William Jennings Bryan. accompanied by Mrs Bryan unexpectedly arrived in Spokane from Missouri last night. Mr Bryan was not supposed to reach Spokane until this morning. Mr Bryan rode from the Northern Pacific depot to the Hotel Spokane unaccompanied and scarcely attracted the attention of the passers-by. He even carried his own grips from the carryall to the clerks

Mr Bryan registered his belief in Government ownership of railroads. The subject too big to be discussed in a few words" he said. "As I stated in my New York speech I regard ownership as the only sure solution of the question, and prefer the dual plan to ownership of all the railroads by the federal government. that time that I did not know whether the people were ready for the remedy or whether any party favored it. I gave it as my individual opinion and also expressed myself in favor of the recent attempted regulation. The people will not desire ownership until they believe that effective regulation is impossible. How soon they will become convinced no one can tell, but as I suggested in the speech referred to. railroad managers by resisting just demands of the public are doing more than anyone else to make the people despair of the successful regulation.

Regarding the discharge of the negro troops, Mr Bryan said that if Secretary Taft's presentation of the issue is correct President Roosevelt did right.

I would like to be more thoroughly in formed upon the situation in regard to the Japanese," he said, when asked his opinion on the San Francisco school entanglement. "I believe he said. "that President Roosevelt had a right to send Secretary Metcalf to San Francisco to investigate conditions, but as to the matter of intervention that is different. It is a legal point of course but I do not believe that the stats can interfere in such a matter."

Mr Bryan would not discuss the Reed

Smoot case.
