## PROPOSED BILL FOR CREATION OF COUNTIES

The Object Being to Forever Take the Matter Out of the Hands of the Legislature

Salem Jan. 26—(Oregonian Special)—

A number of leading members of the Senate and House of the Oregon Legislature have agreed upon a general plan to be adopted governing the creation of new counties. The plan is that no county shall be created unless it is voted for by 75 per cent of the voters in the territory proposed to be so made into a county, and 25 per cent of the voters of the old county. The new county must have a population of 3000 and an assessed valuation of not less than \$2,000,000. The new county must share its proportion of the debt of the old county, but cannot share in the county property. It shall share in the money that may be in the treasury at the time the new county becomes a political organization. Not more than 25 per cent of the area of the new county shall be within the limits of forest or Indian reservations.

This plan has been discussed by a number of members and has been generally approved. Attorney General Crawford has been asked to draw a bill for a general law on the subject and unless unexpected opposition develops the bill will very probably be passed. This will remove from the Legislature all the local fights over the establishment of new counties and leave the people affected thereby to settle the questions among themselves by popular vote.
