Today is Ground Hog day. Tradition tells us that if that animal, the ground hog, can see his shadow on the day which custom and superstition has set aside and dedicated to him, he will quickly reneek his hole and for a period of six weeks the weather will be too cold for Mr. Ground Hog to again show himself.

Today has been one of continual sunshine, and if tradition and superstition is to be relied upon, this vicinity is to be visited by six weeks of cold.

FINE STEEL RANGES

If you are going to buy a steel range, come and examine our celebrated Majestic range. It is surprising at the small amount of fuel they consume and give perfect satisfaction. I also have a few heaters left. This is the time when you need them

Do not forget about carriage heaters. They will keep your feet warm on a long drive.

TWENTY-FIVE ROOMS READY

A car load of furniture arrived today at Hot Lake to be used in furnishing the new sanatorium. Ten cots were also sent to the Lake this morning from this city. Twenty-five rooms in the big new addition will be opened to the great next week, probably Monday.

Walter M. Pierce, proprietor of the sanatorium, said this morning before leaving for Hot Lake, "There are at present one hundred and twenty-five guests in the hotel. When we get the entire addition completed we will have room for two hundred guests and 180 cots."

When this magnificent sanatorium is completed, which will be about April first, there will have been expended \$500,000 for improvements. This is a large sum and Mr. Pierce is justified in saying that he will have the largest sanatorium in the west. A water system for general use as well as fire protection has been completed at a cost of \$12,000.

"During the past four years, fifteen thousand people have been guests at the hotel and sanatorium and an overwhelming majority of this number were foreigners who would perhaps never stop in the Grande Ronde valley were it not for this institution" said the former senator.
