"HELLO" GIRLS ANSWER ABOUT 4000 CALLS DAILY

Did you ever stop to think about how many miles of telephone wire was strung through the streets of La Grande? Did you ever try to make a guess as to the number of telephone calls which pass through the local telephone office each day? The Observer reporter got to thinking of these things the other day and called Mr. G. C. Osburn, manager for Union and Wallowa counties for the Pacific Telephone and Telegraph Company and received the following information: Mr. Osburn's company has four hundred and sixty miles of wire within the city limits. Of this amount three hundred miles are copper wire placed in cables. The local exchange consists of seven hundred and seventy members and the exchange with the long distance business keeps eight girls actively engaged. We say actively, and mean it too, for during the past year a daily average of four thousand calls have passed through the local board. The business has increased to such an extent that two new positions on the board will be added at once.

The monthly pay roll which the company is called upon to meet for the past year has averaged exactly five hundred dollars. Mr. Osburn has been in charge for the past three years, during which time the exchange has never for a moment been totally out of commission. At various times a part of the exchange has been "dead" for a few hours on account of storms, but never for any length of time. Within this and Wallowa counties the company has exchange members to the number of twelve hundred and seventy, and pay stations to the number of twenty. Since June first last year to the first of the present month the local exchange has been increased by one hundred and six contracts. When asked regarding the probable valuation of the company's investment in this county, Mr. Osburn declined to hazard a guess, stating that he was not the purchasing agent for the company, and had no means of knowing how much of an investment the company had seen fit to make in Union county.

Many a hard working young woman spends her noon hour in an endeavor to get a little rest to carry her through the remaining hours of the day. She is weak and weary, but she cannot give up the occupation which supports her. She must go back to the office and the typewriter, to the store and its duties, with tiresome customers to wait on and exacting employees to please. For people who are weak and run down there is no medicine so valuable as Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. Many diseases in organs remote from the stomach have their origin in a diseased condition of the stomach and its allied organs. When the stomach is "weak" there is a failure to properly digest and assimilate the food which is eaten. Hence the whole body, and each organ of it, suffers from lack of nutrition, so that as a consequence of "weak" stomach, there may be "weak" lungs, "weak" heart, "weak" or torpid liver, "weak" nerves, etc. By curing diseases of the stomach and other organs of digestion and nutrition, "Golden Medical Discovery" enables the assimilation of the nutriment necessary for the requirements of a healthy body. It increases the activity of the blood-making glands, and so increases the supply of blood which is the vital fluid of the body. There is no alcohol in the "Discovery" and it is entirely free from opium, cocaine, and all other narcotics. Sick and ailing people especially those suffering from disease in its chronic form are invited to consult Dr. Pierce by letter free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y. There is no similar offer of free medical advice which has behind it an institute of national note such as the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., presided over by Dr. Pierce, its chief consulting physician, with the assistance of nearly a score of skilled specialists.

RAILROADS LOSE HALF A MILLION DOLLARS

A half million dollars says the Baker City Herald will not cover the losses sustained by the O R & N railroad during the blockade of traffic of the past 10 days, according to the estimates of officials. Aside from the enormous expense of opening the line there has been practically no income for several days, all freight and passenger trains having been tied up and the passengers kept at the company's expense. The officials dread to think of the rush of business and the congestion which will follow the opening of the blockade. Every ordinary supply of motive power will be inadequate to move the volume of accumulated traffic, and the line will be almost badly blocked with trains as it is now with slides and washouts.

The work of clearing the track west of Hood River is progressing rapidly and it is hoped to keep it open. Several washouts east of The Dalles are now causing trouble, but so far they are not serious. The Blue mountains have given the company no trouble this winter, the mountain division being about the only section of the road which has been operated without interruption.
