Eastern Oregon is entitled to representation on the new railroad commission, who shall it be?

It will only be a short time until the town cow will be in evidence once more. Just as soon as the herd boys get busy.

Spring fights seem to be the order of the day, possibly pay day may have been the cause for the big end of it.

The prevailing high price of silver will work to no disadvantage in the development of the mines up Grande Ronde river.

The state of Idaho has already spent \$54,000 in the Steunenberg murder case and the trial proper is just about to begin.

Stockmen are beginning to turn their stock out on the range. The range is reported to be quite good on the south side of the hills.

What about that vinegar factory? That is too good a proposition to let go by another year. The pure food law gives pure goods a chance that was not possible under former conditions.

City politics warmed up suddenly yesterday afternoon when a carryall with four prancing steeds appeared upon the streets carrying the band and large canvas banners asking the voters to support Ralph Atkinson for marshal.

The fight put up by the county divisionists was hardly worthy of being considered a contest. With the elimination of senatorial contests in the legislature, the possibility of log rolling vicious legislation is reduced to the minimum.

There is not much danger of the proposed new state of Lincoln ever materializing as the first thing to be secured is the consent of the legislatures of Washington, Oregon and Idaho and then to secure the consent of congress. Quite an undertaking.

There should be hundreds of acres in this valley devoted to the growing of strawberries. It is profitable and provides a large amount of labor. It is an industry that can be made to pay either in a small way or on a large scale.

Our realstate firms are all preparing to take care of the hundreds of home-seekers that can be induced to stop long enough to look over our valley this spring. If they will investigate our resources that is a' they ask. The country will ak for itself.

Those who are in position to know state that it is just a matter of a few weeks until the work of continuing the line of the Central Railroad will be commenced and carried out as originally intended. It is to be hoped, for the general development of the valley that such will be the case.

The announcement by the Pacific Coast Board of Underwriters that insurance rates in Oregon and Idaho have been restored to the rates formerly enjoyed prior to the San Francisco disaster, will be duly appreciated by the property owners of these two great commonwealths. It was simply a hold up scheme from the start. But we should doubtless smile and thank the powers that be, that it is no worse.

Into each life some sorrow must fall;
Wise people don't sit down and sawl;
Only fools suicide or take to flight;
Smart people take Rocky Mountain Tea at night.

BROKEN JEWELS

Your watch may run if a jewel is cracked or broken and it may keep fairlp good time.

The pivot revolving in such a jewel, however, soon cuts and frequently breaks, thus increasing the damage and cost of repairing.

If your watch is varying, it will pay you to have it examined.

All repairs given my personal attention.
