The legislature closes it work today.

Pendleton has passed an ordinance compelling saloons to close at 1 o'clock and remained closed until 6 in the morning.

Missouri has a governor that is actively in favor of direct legislature by the people and strong hopes are entertained of obtaining the Oregon provisions in the State where people want to be shown.

There is a hitch somewhere in the proceedings whereby La Grande does not enjoy the privilege of a free city mail delivery. We are entitled to it. We have reached that size where the receipts of the La Grande postoffice is sufficient to comply with the rules and regulation of the Postal department. The city is properly numbered and our side walks are in as good condition as the average city of this class. There is a "Nigger in the fence" somewhere and tonight it will be well for the Commercial Club to again take up the matter.

HUMBLE PLOW

To the humble plow it can be truly said belongs the credit of the great strides in progress that have been made by this country, for in fact nothing else has contributed so much toward the development and wealth of the United States of America as has this simple implement of husbandry. Indeed, without the improvements that have been made on the plow from time to time, it would have been impossible for us to be occupying the front rank among the nations of the world. With the crooked stick such as was used by the ancients for a plow, there would today be no long freight trains loaded with the products of the soil, hastening from one end of the land to the other. The magnificent passenger trains with which we are so familiar, would never have been built, and indeed, we would need no railroads; we would have no great flouring mill or big factories.—Exchange.

TO GROW FRUIT IN MEXICO

(Scripts News Association)
Seattle, Wash., Feb. 22.—A company of capitalists has been formed here for the purpose of fruit cultivation in Mexico on a large scale. The company has just closed a deal for a large tract of land near Acapulco and operations will be commenced immediately. Limes, lemons, pineapples, oranges, bananas and other tropical fruits will be grown, and a steamship line will be established between Mexico and Vancouver and Seattle. Oscar Brown, of Vancouver, B. C., E. T. Barnette, the Portland multi-millionaire, G. L. Campbell, Portland, J. D. Tredholme, president of the Northwestern Steamship Company, and others are identified with the project.

BROKEN JEWELS

Your watch may run if a jewel is cracked or broken and it may keep fairip good time.

The pivot revolving in such a jewel, however, soon cuts and frequently breaks, thus increasing the damage and cost of repairing.

If your watch is varying, it will pay you to have it examined.

All repairs given my personal attention.
