Reverence for Law.

Let reverence for the laws be taught in the schools, in seminars and in colleges; let it be written in primers, spelling books and almanacs; let it be preached from the pulpit, proclaimed in legislative halls and enforced in courts of justice. And in short, let it become the political religion of the nation; and let the old and the young, the rich and the poor, the grave and the gay of all sexes and tongues and colors and conditions, sacrifice unceasingly upon its altars."

WORLD'S AUTO TRADE.

Consul R. E. Mansfield, writing from Lucerne, Switzerland, states that there is a general feeling among automobile manufacturers and dealers in Europe that a crisis in the automobile trade is imminent. The consul continues:

In France, Germany, Italy and Switzerland there is talk of lack of demand, large stocks, and financial stress. Present conditions and indications in the automobile trade are similar to those existing in the bicycle business some 10 years ago, which resulted in radical changes in prices and the financial distress of many firms and individuals engaged in the business.

The belief generally prevalent that prices will be cheaper next season is given as a reason why many intending purchasers and agencies for not placing orders in advance. As a result many of the large factories and warehouses find themselves with a heavy stock of 1907 models on hand with little prospect of disposing of them, except at a very low figure. Both manufacturers and dealers are confronted with the problem of disposing of stock to make room for the product of 1908.

As in case of the bicycle, the automobile is passing through a peculiar evolution of trade, the result of which will be radical changes in conditions and consequent reduction in prices. The auto has passed the faddist's stage and has entered upon the common-sense, practical basis of competitive business, in which the United States will soon become the leader, because of superior facilities for mechanical production. And as compared with the prices of continental cars, the American motors are cheaper, which recommends them strongly to the popular trade.

BUSY AND BUSINESS GOVERNOR.

One of the most remarkable tributes ever paid to a governor was this editorial, double-headed, by the World:

"One year ago Charles E. Hughes as governor-elect of New York, was an interesting possibility in the public service. Today he is a tried and proved certainty. His administration is one of the chief things for which in a public way the people of New York have reason to be thankful. If they celebrate Thanksgiving day in the right spirit, they will recognize this most important fact in the history of the state.

"In less than 11 months Mr. Hughes has shown not only that he is the ablest man who has occupied the governor's chair in more than a

generation, but that no abler man ever held that great office. With the energy and persistence of a DeWitt Clinton he has in addition a grasp of the principles of constitutional government which few of his predecessors ever attained. With legal abilities not inferior to Tilden's, he is younger, more vigorous and far less of a partisan.

"New York may well be thankful for him. New York needs him not merely for this year and next year, but for at least two full terms in the governorship, to finish a monumental work of reformed administration."

Remarkable as is the tribute, it is substantially the truth. But there are three qualities in the governor's character not mentioned: self-control, reticence and unusual imperviousness to flattery.—New York Christian Advocate.

AWAITING RESULTS.

It was reported last week that an effort is to be made to secure a petition looking toward submitting the question of the division of Union county, but the report has no foundation. The time is too short and it would be impossible to secure the required petition in the time available. Hood River is making the fight this year, and the result will be watched with interest.

WERE PREPARED.

The recent action of the city of Union toward regulating the sale of liquor and some of the evils that are often coupled with that business, is simply in accord with the instructions of the voters at the recent city election, and is not a surprise to the vendors of liquor, who fully understood the issue. The council is simply carrying out its instructions from the people.—Union Republican.

The Pacific coast is buying grape juice in carload quantities. This will not always be the case. There are large territories in Oregon, Washington, Idaho and California that are especially adapted to grape culture. The Welch Grape Juice company during 1907 purchased 4570 tons of Concord grapes which it paid New York growers \$40 per ton. The demand for grape juice is rapidly increasing, as a result there is a great future for the grape industry on this coast.

It is such weather as we have been favored with the past few days that makes this a desirable fruit country for the many varieties that grow to perfection in this climate. A few days of below-zero weather kills many pests that are the barriers to dividend producing orchards in warmer sections. Just ordinary care in this valley will always keep the insects at bay.

The public will keep a close watch on the Hughes boom which is now being launched. At this time nine out of ten republicans would say the nomination will go to either Taft or Hughes. But it is five months yet until the convention meets and all slates now constructed are subject to change.

GUARDIANSHIP.

DRIFTING TOWARDS BRIGHT'S DISEASE

Many people who are neglecting symptoms of kidney trouble, hoping "it will wear away," are drifting towards Bright's Disease, which is kidney trouble in one of its worst forms.

FOLEY'S KIDNEY CURE

stops irregularities, strengthens the urinary organs and builds up the worn-out tissues of the kidneys so they will perform their functions properly. Healthy kidneys strain out the impurities from the blood as it passes through them. Diseased kidneys do not, and the poisonous waste matter is carried by the circulation to every part of the body, causing dizziness, backache, stomach trouble, sluggish liver, irregular heart action, etc. If you have any signs of Kidney or Bladder trouble commence taking FOLEY'S KIDNEY CURE at once, as it will cure a slight disorder in a few days and prevent a fatal malady. It is pleasant to take and benefits the whole system.

How to Find Out.

You can easily determine if your kidneys are out of order by setting aside for 24 hours a bottle of the urine passed upon arising. If upon examination it is cloudy or milky or has a brick-dust sediment or small particles float about in it, your kidneys are diseased, and FOLEY'S KIDNEY CURE should be taken at once.

G. B. Burhans Testifies After Four Years.

G. B. Burhans of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick-dust sediment and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed, and I am evidently cured to any extent, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble."
