DIRECTION OF MILLER & DRAPER

Is a dead issue. So says Dr. H. C. Parke of the Indiana School of Medicine, in Collier's Weekly. We concur with him. Blue Mountain Cough Syrup will cure your cough, not as pleasant to take as some others, but it contains the ingredients that will positively and absolutely cure that cough.

WORK ON SNAKE RIVER

Portland, Feb. 8.—On good authority it is announced here by one of the Oregon Short Line officials that the construction of the Snake river extension from Huntington to Lewiston will be resumed by March 1. The road is now graded quite a distance and work was stopped just as the construction company was ready to lay steel. Three thousand five hundred men were employed on the line, as a vast amount of work is being done on the roadbed with the ultimate intention of making it one of the main lines of transcontinental traffic.

The new road taps a section of the richest mining country known to the United States, besides it will develop much agricultural resources.

There has been a rumor in Baker City to the effect that work would soon begin on the Snake river road, and the above dispatch verifies it. Saturday the Herald called up Frank Pierce, manager of the Iron Dyke mine, over the telephone to ascertain if he knew any details of the matter. He replied he did not know to a certainty, but there was a rumor to the effect that work would begin by March 1, and that the rumor seemed to be well founded.

FLOUR MILL WHEELS TURN

The La Grande flouring mill commenced grinding this morning and enters upon a long continuous run, day and night. It has been closed since the suspension of electric power, but will use steam until conditions become normal once more. The mill has on hand a large amount of grain and its reputation for manufacturing the highest grade of flour enables it to hold a large clientele throughout eastern Oregon, Idaho and Montana. This will add another steady payroll to the town that has always been steady until a few weeks ago.

To Try Haaga Again.
 After being out more than 39 hours, the 12 men chosen to try Joseph Haaga, were unable to agree upon a verdict, and were discharged by Judge Bean yesterday morning at 10 o'clock. District Attorney Phelps announced last night that the case would be tried again at the April term.

When the jury was discharged it was found that the rumors of the previous day to the effect that the ballots stood 11 for conviction and one for acquittal was far wrong, since in reality they stood 10 for acquittal and two for conviction. At one time it was 11 to 1 for acquittal.

The first ballot stood six for acquittal, five for conviction and one blank. Though a large number of ballots were taken thereafter, the majority was always in favor of acquittal.

The two jurors who hung out were

William Caldwell of this city, and F. M. Kent of Milton.—Pendleton Tribune.

Sterilizing Milk.

When an outfit for sterilizing milk is not handy the milk may be sterilized as follows: Fill an ordinary nursing bottle with milk. In a boiler put a piece of wood an inch thick, then water to the depth of an inch. Plug the bottle with a clean piece of cotton and place on the piece of wood in the boiler so that it will not touch the bottom. Allow to steam for an hour at least and then put the milk away in a cool, dark place. Several bottles of milk may be sterilized at once.

Piles Cured at Home by New Absorption Method.

If you suffer from bleeding, itching, blind or protruding piles, send me your address, and I will tell you how to cure yourself at home by the

new absorption treatment; and will also send some of this home treatment free for trial, with references from your own locality if requested. Immediate relief and permanent cure assured. Send no money, but tell others of this offer. Write today to Mrs. M. Summers, Box P, Notre Dame, Ind.
