PROSPECTS ARE BRIGHT

Seattle, Feb. 11.—(Special correspondence.)—The work on the grounds and buildings of the Alaska-Yukon-Pacific exposition goes on without interruption. The Manufacturers building will soon be ready for the placing of the big roof, while the Agriculture building is rapidly taking shape. The Auditorium, Machinery and Fine Arts buildings, permanent structures, will soon be under way, as likewise will the Mines and Fisheries buildings.

The exposition is gaining many more friends in congress. A favorable hearing was had recently in the house committee on industrial expositions, at which many prominent men appeared in behalf of the 1909 fair. Among them was Secretary Taft, who is in favor of a liberal appropriation for government participation. The committee in the senate has reported the appropriation bill favorably. The exposition measure as it now stands makes an appropriation of \$700,000. Of this amount \$300,000 is for buildings and \$400,000 for exhibits. The exposition management has assurance that the bill will pass some time in the near future.

The entire west is standing back of the exposition with its support. The following editorial in the Portland Oregonian adequately expresses the sentiment felt in the western states in regard to government participation:

"In all of the reports coming from Washington, D. C., constant reference is made to the bad effect which the Jamestown fiasco would have on the expected appropriation for Seattle. If this be the influence working against the project, it reflects no credit on the intelligence of the men who are unfavorable to a liberal appropriation.

"The conditions and influences which made a failure of the Jamestown exposition could by a wide stretch of the imagination be construed as having anything in common with those which will govern the success or failure of the big show Seattle is preparing.

"If the Seattle exposition must be haggled over and cut down because the Jamestown exposition was a failure, why would not be fair to pass a liberal appropriation, and pass it quickly, because the Portland exposition was a grand success? Nearly every element that entered into the success of the Portland exposition will be in evidence at Seattle.

"The exposition will be a success because the Portland exposition was a success. The western stamp of enterprise and self-reliance was on the Portland project, and it will also be on that of Seattle. It was sadly missing from the southern failure. If the bill is pruned too deeply or should meet with defeat, it will be largely the result of ignorance on the part of the men opposing it."
