TO WORK PRISONERS ON ROAD.

County Commissioners to Macadamize Highways Near Colfax.

A Colfax dispatch says: The county commissioners will begin macadamizing the roads leading south from Colfax within the next week or 10 days. The rock crusher will be located at the top of the grade leading out of town on the Almota road, and the prisoners under sentence in the county jail will be employed in its operation, the commissioners having authorized Sheriff Ratliff to put on a special deputy to guard them.

The work of hauling the crushed rock and distributing it will be done free by the farmers along the roads. It was the intention of Commissioner Ellis, in whose district these roads are, to have had this work done under the new highway law passed by the last legislature, but there was some defect in the estimate, and also in the matter of selecting the part to be improved, and the engineer employed by the state highway commissioner turned the project down on the ground that the bids submitted by the contractors who figured on the work, were far in excess of the amount of contracts for similar work in other parts of the state.

It is probable that another attempt to have the roads worked under the provisions of this law will be made next year, if the bids submitted at that time are low enough to justify the expenditure.

DRIFTING TOWARDS BRIGHT'S DISEASE

Many people who are neglecting symptoms of kidney trouble, hoping "it will wear away," are drifting towards Bright's Disease, which is kidney trouble in one of its worst forms.

FOLEY'S KIDNEY CURE

stops irregularities, strengthens the urinary organs and builds up the worn-out tissues of the kidneys so they will perform their functions properly. Healthy kidneys strain out the impurities from the blood as it passes through them. Diseased kidneys do not, and the poisonous waste matter is carried by the circulation to every part of the body, causing dizziness, backache, stomach trouble, sluggish liver, irregular heart action, etc. If you have any signs of kidney or bladder trouble commence taking FOLEY'S KIDNEY CURE at once, as it will cure a slight disorder in a few days and prevent a fatal malady. It is pleasant to take and benefits the whole system.

How to Find Out.

You can easily determine if your kidneys are out of order by setting aside for 24 hours a bottle of the urine passed upon arising. If upon examination it is cloudy or milky or has a brick-dust sediment or small particles float about in it, your kidneys are diseased, and FOLEY'S KIDNEY CURE should be taken at once.

G. B. Burhans Testifies After Four Years.

G. B. Burhans of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick-dust sediment and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed, and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble."

Two Sizes, 50 Cents and \$1.00.
