MANY ARE COMING HERE

Commencing at 10 o'clock tomorrow morning the county teachers' convention opens at the high school assembly room of this city. County Superintendent Bragg is firm in his belief that this will be the most interesting of any of the series of meetings which have been held this winter. According to present indications there will be something like 50 county teachers here and a program of considerable interest will be given. Immediately after adjournment, at 3 o'clock, the teachers will go en masse to the ball park, where the La Grande-Cove baseball game takes place.

Communication.
To Friends and Enemies of the Saloon:

Some one kindly has mailed me a little circular, setting forth what are alleged to be facts concerning the liquor business. I knew it was great, but had never an idea it is so enormous. Of course, this circular writer is telling the truth, else he would not pose before the public.

Here are some of the statements:
Corn 36,361,975 bushels
Barley 62,760,000 bushels
Rye 5,595,000 bushels
Total 104,716,975 bushels

This number of bushels of grain are annually consumed by the distiller. That means turned into poison, so that not one grain of it is ever capable of giving one particle of strength or health to man or beast. What a waste! Why should the liquor interests desire to advertise such destruction, amounting annually to \$93,950,097? Besides that, they consume \$16,355,000 worth of sugar products, hops and assorted grains, they say; waste \$54,542,000 worth of labor; burn \$5,000,000 worth of fuel (in these days when fuel is growing so scarce); create \$15,000,000 worth of useless bottles and squander enough money for other purposes to aggregate a grand total of \$369,851,097 each year.

What a criminal waste! A senseless, prodigal, unjustifiable waste!

On the last page—as an idiotic peroration to such an eloquent and shameless confession of worse than barbaric destruction of goods—worse than any war—and amounting to \$3,698,510,970 in ten years, is made the astounding, but perfectly logical statement that already there are many thousands who are clamoring for food and shelter. I should think it is no wonder! The 36 million bushels of corn would feed them quite a while, or it would make good pork for natural hogs for them, instead of making unnatural hogs of the men and women who would drink the various concoctions.

The 62 million dollars' worth of barley and the 39 hundred thousand dollars' worth of rye would do these starving thousands of men much more good in soups and bread.

This circular is addressed to "farmers, manufacturers, etc." Think of the ignorance or the blazoned effrontery of a man or a concern to publish this! Thousands starving for the necessities of life and the saloon interests destroying so much grain! Surely some enemy has done this!

Death Was on His Heels.
Jeane P. Morris of Skippers, Va. had a colic call in the spring of 1906. He says: "An attack of pneumonia left me so weak and with such a fearful cough that my friends declared consumption had me, and death was on my heels. Then I was persuaded to try Dr. King's New Discovery. It helped me immediately, and after taking two and a half bottles I was a well man again. I found out that New Discovery is the best remedy for coughs and lung disease in all the world." Sold under guarantee at the Newlin drug store. 50c and \$1. Trial bottle free.
