S. S. S. FORTY YEARS SUCCESSFUL SERVICE

When a medicine has stood the test for a period of more than two generations and is then more popular than ever, there can be no doubt of its merit. This is the record of S. S. S. Its period of existence is marked by a long line of cures of blood and skin diseases of every character, and its value in the treatment of such troubles has become so well known that it is today the most extensively used blood medicine on the market. For Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases and all other troubles due to an impure or poisoned condition of the blood, S. S. S. has no equal. It counteracts and drives out the poisons, humors and germs, cleanses the system of all unhealthy matter, cures the disease permanently and restores strong, robust health. Where the blood is weak or anaemic, and unable to furnish the body with the nourishment and strength it needs, S. S. S. supplies it with the healthful properties and acts splendidly in toning up and reinvigorating the system. It goes down to the very bottom of all blood disorders, and in this way reaches inherited taints on which the ordinary blood medicines have no effect. Not only is S. S. S. certain in its results, but it is at the same time an absolutely safe remedy. It is made entirely of roots, herbs and barks of known healing and curative value. It does not contain the slightest trace of mineral in any form to damage the delicate parts of the system, and may be used by children with the same good results and perfect safety as by older people. It is not an experiment to use S. S. S.; it is a remedy with a record and one that has proven its worth by its forty years of successful service. If you are in need of a blood purifier for any cause begin the use of S. S. S., write our physicians and they will send you a book concerning your trouble, and will give without charge any special medical advice that is required.

Books and Stationery Ferguson's

For some years we have had ideas on the subject of the proper method of conducting a book store. Since we were able to put those theories into practice a few months ago, our conviction that WE KNOW HOW has been strengthened. At any rate, our competitors have found us worth imitating. Perhaps you have noticed it; we have, and not without complacency. Next week, if we may, we shall tell you what our ideal store is. We imagine that some will disagree with us, but we want to be understood by the buying public, and are entirely willing to pay for the privilege of explaining our methods. We shall be glad to welcome you at any time, except Sunday. We close on that day. At any other time "NOTHING IS TOO MUCH TROUBLE."
