**NOT ALONE.**  
Air: "Last Rose of Summer."  
Oh, great is the comfort when friendships decay,  
To know that a saviour is guarding my way,  
That the powers of darkness fall helpless and shorn,  
By the love that upholds me and urges me on.

Thou'lt not leave me, my saviour, to wander alone,  
The arms of thy love are around me now thrown.  
Thou dost lovingly gather thine own to thy breast,  
And I nestle close to thee like a bird in its nest.

So I am trusting and working and winning each day,  
The reward it is priceless, and I may not delay;  
I heed not the storm-clouds though they burst o'er my head,  
Thy love's shining through them, and I lose all my dread.

# OBSTINATE ULCERS MAY LEAD TO CANCER

There is no difference, at first, in the appearance of a cancerous and common ulcer, and for this reason every sore that is obstinate or slow in healing should excite suspicion, for the sore is nothing more than the external evidence of a polluted blood, and if allowed to remain may degenerate into Cancer. Efforts to heal the ulcer by means of salves, plasters and other external remedies always result in failure, because such treatment can have no possible effect on the blood, where the deadly germs and morbid matter form, and are carried through the circulation to the place. No sore or ulcer can exist without a predisposing internal cause, and the open, discharging ulcer or festering old sore will continue to eat deeper into the surrounding flesh as long as a polluted, germ-infected circulation discharges its impurities into it. S. S. S. goes to the fountain-head of the trouble, and drives out the germ-producing poisons and morbid impurities which keep the ulcer open. Then as this rich, purified blood goes to the diseased place the healing begins, all discharge ceases, the inflammation gradually leaves, new tissue and healthy flesh are formed, and soon the sore is permanently cured. S. S. S. is made entirely of roots and herbs of a healing, cleansing nature, and unlike mineral medicines, which often do great damage to the delicate parts of the system, S. S. S. tones up every part of the body. Book on Sores and Ulcers and any medical advice desired free.
